Data Access: Native, ADO, ODBC, RDO

Other Tools: Erwin, TOAD, SQL Navigator, PVCS, HTML Help Workshop, Query Analyzer, Microsoft Visual Source Safe, EditPlus, Stylus Studio

Crystal Reports Clients / Experience

Pharmaceutical Service Client

Business Objects

The client, is a global pharmaceutical services company that provides integrated strategies and solutions, with clinical expertise in development and real world evidence during commercialization, all backed by rich healthcare data of the larger parent organization United Health Group. Reports are essential for project leaders and managers to follow up on different clinical studies. Ongoing projects include a new SOA implementation for report services with migration from 8.5 to XI, an upgrade process for the Siebel database, and new quality management software (TrackWise).

My work as a Sr. BO Consultant included multiple projects handling all aspects of report development from gathering requirements till publishing in the designated applications for new reports including Compliance work, maintained existing reports through the Siebel database upgrade process, and migrated 8.5 reports to XI for the new Enterprise Reporting Platform as part of the SOA new implementation.

Responsibilities:

- Designed new reports in version XI for TrackWise Audit Management.
- Designed new reports in version 8.5 for eClinical Studies.
- Created the necessary views, commands, and stored procedures for the new reports.
- Solved existing Excel Data-Only export problems and enhanced reports run time efficiency.
- Migrated existing reports from 8.5 to XI.
- Worked with EditPlus to edit the asp pages of the report application based in an Ellipsis Application Suite.
- Published reports to Crystal XI Reports Server and created folders, groups, and users as per requirements.
- Handled Compliance and Validation work related to reports.
- Gathered Business requirements for new reports and worked closely with the business side for decisive quick input on requirements to minimize developing time.

- Worked with the Siebel Upgrade team to identify affected Views and modified the reports accordingly.
- Worked with the developers' team to create views for the web services for the SOA based new enterprise platform as well as an xml file for the parameters used.
- Scheduled walkthrough sessions with managers for the created reports.

Environment:

Win2000/2003 Servers, IIS 5.5/6.0, Crystal Reports 8.5/XI, Crystal Reports Server XI, Oracle 9i/10g, Toad, Visual Source Safe, Stylus Studio, EditPlus, Ellipsis, Siebel eClinical, TrackWise, DevTrack Web.

Clothing wholesaler

Business Objects

The Client is a leading designer, marketer and wholesaler of branded apparel, footwear and accessories. The company uses PLM software that controls the product development cycle and are in frequent need for quick optimized reports for managers to view designers work and prototypes. These reports heavily include OLE objects and custom designed cosmetics/formats as requested by managers.

My role as a Sr. BO Consultant included handling the reporting side as the lead crystal reports developer using Business Objects Enterprise XI/ Crystal Reports XI specifically optimizing poor performance reports and enhancing their run time in addition to designing new reports.

Responsibilities:

- Working on reports based on stored procedures to enhance their performance.
- Taking out sub reports and including them in the main stored procedure of the report
- Rearranging the position of fields in the different report sections to minimize the database accessing time.
- Designing new reports based on the users specifications.
- Helping developers understand the Business Enterprise architecture including the different servers involved when running a report.

Environment:

Win2000/2003 Servers, IIS 5.5/6.0, Crystal Reports XI, Business Objects Enterprise XI, Oracle 8i/9i/10g, Toad, Visual Source Safe.

Financial Management Client

Executive Stock Options eReporting (EXSOP)

The Client is one of the world's leading wealth management, capital markets and advisory companies. EXSOP eReporting for Plan Sponsors is one of the many services provided by the client which enables plan teams to create standard and ad-hoc reports as well as the standard scheduled reports.

My work included creating standard and ad-hoc reports with the standard reporting scheduling option and the saving, printing and exporting features. Also, designed specific reports for many special requests from Plan Sponsors and templates for the customized Ad-Hoc report application that

has been developed to allow the users to choose from the list of templates and go on designing their own reports.

Responsibilities:

- Handling new requests for modifying existing reports.
- Supporting issues with the published reports in all crystal enterprise environments (Development, UAT, Test and Production).
- Checking data accuracy problems with existing reports to see if it is a data issue (Data Base side) or a report design issue.
- Designing new reports for new specific Plan Sponsor requests.
- Working with PVCS to ensure all reports being worked on are the latest versions existing there and that they are correctly locked.
- Using Toad Application to test the reports' commands for data validation.
- Publishing reports to the different environments and ensuring that all existing reports are up to date in all standard folders.
- Managing the EXSOP Crystal Enterprise environments including creating users, folders, scheduling reports and using the SMTP and FTP scheduling features.
- Working with database developers in projects involving creating, testing and tuning new command based reports in the development environment.
- Giving sign-off on crystal enterprise and ad-hoc application after each new release.
- Installing Crystal Enterprise on new servers in the Development environment and using Publishing Wizard to import/export reports.
- Scheduling meetings for on going projects to ensure that all developers are aware of the progress rate of work.
- Attending Business Objects seminars on Crystal XI features and studying the upgrade process of the existing reports and environment to the latest one.

Environment:

Win2000/2003 Servers, IIS 5.5/6.0, Crystal Reports 8.5/10/XI, Crystal Enterprise10/XI, Oracle 8i/9i/10g, Toad, PVCS, Data Direct ODBC drivers.

Electrical Hardware Supplier Client **Crystal Reports Developer**

The client is a major electrical hardware supplier with business clients all over Lebanon. Worked as a Crystal Report developer managing all reporting aspects regarding business accounts, items, invoices, etc. The second phase of the project involved Crystal Reports migration to version 8.5 as well as database upgrade to SQL Server 2000.

Responsibilities:
