CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

Converted their 10 year old legacy financial reporting software (Comshare FDC) to a custom developed financial software system that I designed and developed using MS Reporting Services, SQL Server and .Net technologies. This web based financial software includes automated backend database extractions from their ERP system to the financial database for real time financial reporting. Developed over 100 financial statements with drilldown capability to the source transaction. Also developed financial maintenance tools for fiscal month and year end processing and provided web based detailed end user manuals.

Developed an E-Commerce website using MS Commerce Server 2002 and .Net technologies. Please review completed website at <http://www.bobrick.com>, the website features SQL Server 2000/2005 on the back end.

Developed an extensive web/windows based Pricing application that included converting the clients legacy VAX data, and using Access 2000, SQL Server 2000, SQL Server DTS Packages, Excel 2000, VB.Net and ASP.Net.

Developed a web based Corporate wide Sales Management reporting system using Crystal Reports 8.5/9/10/.Net and SQL Server Reporting Services to include Pricing, Commissions and Sales reports.

Wrote extensive and complex SQL Server database Stored Procedures, Triggers, Views, Custom Tables and DTS packages for database development of legacy and new business applications. Developed Data Warehouse OLAP cubes for data analyzing and reporting. Provided SQL Server Database Administration to include, Performance Tuning, Backups, Data Recovery, etc. Developed Data Models using Entity Relationship Diagrams ERD - Tools: Visio, Adobe and SQL Server.

Wrote Access 97/2000 database applications using VBA code to assist with the clients various Pricing projects and to use as database conversion tools to SQL Server. Wrote extensive documentation with database diagrams for web and windows based applications as well as End User Help Guides. Developed a web based documentation website for every web and windows application developed. Provided End User training and support on all applications developed. Worked in multiple server platforms: Windows NT Server, Windows 2000 Server and Windows 2003 Server. Worked with multiple desktop platforms: Windows 98, Windows NT, Windows 2000 and Windows XP.

Software Client

Crystal Report Developer

Created custom Financial Statements for Month and Year End Audit Analysis. Designed and developed extensive Sales Analysis reports using Crystal Reports version 10 and SAP R/3. Wrote extensive Stored Procedures, Tables and Views for SQL database development. Worked with two clients: Thermage, Inc. Hayward, CA and PGT Industries Miami, FL

Analysts Client

Technical Lead and Report Developer

Cendien Consulting

<http://www.cendien.com>

Developed numerous reports using Crystal Reports version 10 to publish to the Crystal Enterprise version 10 application. Converted pre-existing IQ Objects/MyEureka reports to the Crystal Reports report writer. The reports developed were from various ERP business unit processes, such as Accounting, Sales, Manufacturing & Inventory. The ERP system used is Infor (Adage) and Oracle 9i is the database backend environment. Used PL/SQL to create and modify custom tables, database views and stored procedures. Worked with the End User community to help analyze and develop the requested reports.

Metal Processing Client

Database Developer / Senior Crystal Reports Consultant

Implemented an ERP Infor (Adage) system to include all integrated Business Unit Processes. Assisted IT Management with project planning to include objectives defined, End User training and project timeline. The first Business Unit to implement was the Financials that included the General Ledger, Accounts Payable and Purchasing. I installed all three Business Units within three months with adhoc reporting, an additional 40 custom Financial Statements took another three months to implement. Worked with the CFO and Acctg. End Users to develop the Financial Statements needed.

Developed, and documented system-operating procedures. Also, analyzed and documented system and end user requirements. Ported data from the clients legacy based business systems to convert to the new ERP business system. Wrote complex financial and supply chain Stored Procedures, Triggers, Views and Custom Tables for Database Development of their new ERP system.

Provided SQL Server Data Management: Full or transaction based backups, Transaction log overflow prevention, Space Management, Performance Management: Paging, Caching, Indexing, Database Parameters, Optimize SQL Code, Identify hardware and application bottlenecks, Fault Management: Monitoring for performance and space alerts, Timely reporting of and response to alerts, Security Management: Monitoring of system and database object privileges and rights, Data Warehousing, Logical and Physical Database Design, Disaster Recovery, Data Transformation Service DTS & Database Replication. Provided SQL Server Data Modeling using Entity Relationship Diagrams ERD - Tools: Visio, Adobe & SQL Server Database Diagrams.

Created custom Financial Statements for Month and Year End Audit Analysis. Designed and Developed extensive Inventory Management, Sales Analysis and MRP/MPS Planning Reports using Crystal Reports 6/7 & IQ Objects/MyEureka report writers. Provided SQL Database Administration and developed End User Interfaces to custom Business Applications using Programming Applications: Visual Basic, Visual FoxPro, VBA for MS Access 97 and MS Excel 97. Supplied training to End Users on the Functionality of each ERP Business Process. Assisted the IT Department with Windows NT network maintenance. Trained on all SAP R/3 4.6 Computer Based Training modules for possible system implementation.

Worked in multiple server platforms: Windows NT Server and Windows 2000 Server. Worked with multiple desktop platforms: Windows 98, Windows NT and Windows 2000.

Wholesale Fabric Client

Database Developer / Senior Crystal Reports Consultant

Developed reports for all Business Processes using Crystal Reports versions 6/7 and Access 97.

Wrote Financial Statements using the built-in tool named FRX for Platinum ERP system. Trained the MIS management staff on SQL Server Database Administration to include Security, Maintenance, Capacity Planning and Data Warehousing.

Provided database conversion migrating data from an MS Access database to a SQL Server 2000 database environment. Developed Visual Basic programs to enhance their custom made MRP system made from Platinum for Windows and MS Access. Wrote extensive stored procedures for Betreive database migration to SQL Server 2000.

Assisted with implementing an MRP system named Expandable II. Provided service pack installations and developed all of the required MRP reports using Crystal Reports 9.0. Analyzed new MRP modules against their legacy business processes to recommend code enhancements and reporting requirements. Worked with the Financial End Users to complete requests made for Financial Statement reporting needs.

Retail Grocery Store

Database Developer / Senior Crystal Reports Consultant

Wrote extensive Stored Procedures, Triggers and Views for database development. Created custom Financial Statements for Month and Year End Audit Analysis. Designed and Developed extensive Inventory Management, Sales Analysis and MRP/MPS Planning Reports using Crystal Reports 6 & IQ Objects/My Eureka report writers. Worked with the CFO and Accounting End Users to provide Inventory Analysis and Accounting reporting.

Higher Education Client

Database Developer / Programmer - Technical Consultant

Traveled extensively nationwide as a Technical Consultant for an Enterprise Resource Planning Software Company implementing Infor (Adage) ERP. Provided consulting services to Manufacturing Companies/Divisions throughout the United States such as: Safeway, Blue Diamond Almond, and Oreida. Analyzed legacy systems for ERP conversion. Defined, developed, and documented operating system procedures for legacy data processing-based business systems and applications.

Created custom Financial Statements for month end, year-end and audit analysis. Designed and Developed extensive Inventory Management, Sales Analysis and MRP/MPS planning reports using Crystal Reports 5/6/7, IQ Objects/My Eureka, Brio report writers and OLAP Cube analysis. Worked in multiple platforms Windows NT, Novel, UNIX and databases Oracle 7x, SQL Server 6.5/7.0, Informix.
