Professional Summary

- **Over 7 + years of IT experience with over 4 + years experience as a Hyperion Consultant**, Extensive hands on technical experience in many aspects of Data Warehouse and OLAP software systems design and implementation.
- Extensive experience in the development, design, analysis and Implementation of various applications using **Hyperion System 9, Hyperion Essbase 7.X/6.X, Essbase Integration Services, Hyperion Analyzer, Hyperion Reports, Hyperion Planning, Hyperion Financial Management (HFM), Hyperion Performance Suite, BRIO, and Essbase Spreadsheet Add-In on Windows 2000/NT and Unix environments.**
- Heavy expertise in developing **BRIO Reports** using **Brio Designer/Explorer** and translating functional requirements into technical specifications.
- Installed and setup **Hyperion SQR Server** for DDO to establish its connection with the Essbase Server to generate various financial reports.
- Commendable knowledge and experience in **automation, Essbase cube designing, partitioning and optimization** of report queries in Microsoft Excel.
- Designed and developed numerous cubes from conceptual stage, **Essbase MDDB applications, OLAP Models and Meta-Outlines** with **excellent balance of dense and sparse dimensions.**
- Worked on **financial reporting systems** and Decision Support Systems (**DSS**) using Hyperion **Essbase** and in building **Financial Budgeting** and **Forecasting** OLAP applications.
- Ability to **meet deadlines and handle pressure** in coordinating multiple tasks in a work/project environment. Versatile team player with excellent analytical, presentation and inter-personal skills

Technical Skills

OLAP Tools:	Hyperion System 9, Hyperion Essbase 7.x/6.x, Excel Add-In, Essbase Integration Services 7.1 / 6.x, ESSCMD, MaxL, Essbase Administration Services, Hyperion Planning, Hyperion Performance Suite 8.3.
Business Intelligence Tools:	Hyperion Planning 3.3.x, H.A.L, Hyperion Financial Management Suite (HFM)
Operating Systems:	MS-DOS, UNIX, WINDOWS 98/2000/NT 4.0/XP
Languages:	SQL, PL/SQL, C, C++, HTML, DHTML, XML
Databases:	Essbase, Oracle 8.x/7.x/6.x, MS SQL Server 2000/7.0/6.5, MS Access 2000, DB2, Sybase.
Internet Technologies:	ASP, Java Script, HTML, MS FrontPage, Dream Weaver, Macromedia Flash, DHTML and VB Script
GUI:	Visual Basic 6.0/5.0, SAP GUI
Reporting Tools:	Hyperion Analyzer 7.0, Hyperion Reports 7.0, Brio 6.5, SQR and Micro Strategy 8.2
Dimensional Modeling:	Star-Schema Modeling, Snowflake Modeling , Fact and Dimensions Tables, Physical and logical data modeling, Erwin 4.0.

Clients / Experience

Publishing Client, New York, NY

Hyperion /Brio Developer

The database contained information about all the Customer Information, departments, regions, mortgage loans, product information, billing information, etc. The main objective of this project is to develop a reporting system and scheduling of the Reports generation for the whole year, month, weekly and daily as per the requirement of the users and also maintenance of two projects developed on various platforms. The reporting tools for the generation of the reports are Brio Reports.

Roles & Responsibilities:

- Designed and developed numerous Essbase applications with excellent balance of dense and sparse dimensions, arranged in an hourglass fashion. Developed **Aggregate Storage Cubes** using **Hyperion System 9.2**.
- Installed Hyperion Planning software and designed a design document on Hyperion Planning for the end users, how to work with forms, how to create business rule, and how to manage the workflow.
- **Lead a team of three** for Software Development Life cycle of developing new cubes and redesigning and restructuring the existing cubes.

Usage of Hyperion SQR:

- Installed and set up Hyperion SQR server for **DDO** to establish its connection with the Essbase server to generate various financial reports.
- Analyzed financial results and prepared trend reports to support business managers make profitable decisions using **Hyperion SQR Developer** and **SQR Viewer**.
- Modified existing baseline code to improve **functionality, fixed defects** associated with the application and prototype new reporting features using the Hyperion SQR.
- Prepared profitability reports, which detail unit cost, price and volume trends and expense variances over prior periods using **Hyperion SQR developer**.

Usage of Hyperion Intelligence:

- Created **Hyperion performance scorecards**.
- Created customized **dashboards** and reports for more detailed analysis of scorecard data from a single application.
- Deployed dashboards in **Hyperion Intelligence viewer platform** – HTML, Insight plug-in, Explorer client and Designer client.
- Used Drag and drop charts, pivots and tables onto the layouts to create the dashboard's subject matter.
- Used Hyperion Intelligence **Dashboard Builder** to reduce development and maintenance time.

Environment: Clarity, Hyperion Essbase System 9, Hyperion Reports 7.0, Hyperion Analyzer 6.5, Hyperion Planning 3.5.1, HFM, Hyperion Reports 7.0, Hyperion Performance Suite 8.3, SQR, Essbase Integration Services 7.1, BRIO 6.5, Microsoft Excel 2000, Oracle 9i, Windows 2000 Advance Server, UNIX.

Pharmaceuticals Client ,Secacus, NJ Hyperion Essbase Developer

Revised and restructured the clients' Essbase reporting cube to incorporate new bonus reporting activities associated with product initiatives at their 600 patient care centers. Upon completion of database redesign, built and verified the content for 68 new Hyperion Reports.

Roles & Responsibilities:

- As an Essbase Database **Administrator** created **Users** and **Groups** in Hyperion Essbase and assigned privileges to them. Applied security on different applications by creating **Filters** on its dimension members.
- **Migrated** Essbase server into newer versions and newer operating systems.
- Created new DOS batch script to automate the transfer of Data from Data Server to Essbase Server.
- Developed many kinds of reports like tabular report, chart report, cross-tab report using **BRIO**.
- Design and development of **Brio** reports using BRIO enterprise and Oracle 9i, DB2 as backend databases.
- Involved in creating Rule files for multi-dimensional databases, optimized Data Loads and Calc Scripts.
- Provided seamless integration of historical, projected and derived data.
- Created OLAP Model and Meta Outline for Essbase OLAP Server using Essbase Integration Services.
- Loaded data using Essbase Integration Services (EIS).
- Implemented star schema and used EIS to interface with the company's existing Oracle 9i data warehouse.
- Designed and developed numerous Essbase applications with excellent balance of dense and sparse dimensions, arranged in an hourglass fashion.
- Involved in installation and up-gradation of Hyperion Essbase, Essbase Integration Services.
- Involved in system installation, configuration and software upgrades from Essbase version 6.5 to 7.1.
- Prepared Profitability Reports, which detail Unit Cost, Price and Volume Trends, and Expense Variances over prior periods.
- Prepared quarterly forecasts, annual budget, ad-hoc reporting and management reporting by working with the business managers.
- Involved in defining requirements, functional specifications, designing documentations and testing strategies.
- Thorough internal training and practical experience got familiarized with budgeting system, mainframe applications and the General Ledger database.

Usage of Hyperion Planning

- Used **Hyperion Planning 3.5.1** to create new **web form** called Allocation Drivers to reduce the work load of the user thereby focusing on a single form rather than three different Forms namely Plan, Actual and Forecast.

CENDIEN CORP: (214) 245-4580

<http://www.cendien.com>

- **Hyperion Planning** was used in testing of the new calculation scripts and to define **business rules** to match the needs of the users
- Created data entry forms to enter forms, update, analyze, print, and report on data.
- **Hyperion Planning** was used in testing of the new calculation scripts.
- **Hyperion Planning** was used to define **business rules** with run-time prompts or allocation sequences to match the needs of the users.
- Created reports and mapped **H.A.L jobs** to load the hierarchies into different planning applications.

Usage of Hyperion Analyzer

- Installed and configured **Hyperion Analyzer** and created user/groups in it.
- Generated reports using HTML,java web clients.
- Defined queries with cube navigators formatted sread sheet add-in and saved the reports as web page.
- Developed **Analyzer OLAP views** and sophisticated what-if scenarios for the end users

Environment: Hyperion Essbase 7.0/6.5.1, Hyperion Planning, Hyperion Reports 7.0/ 6.5, BRIO, Hyperion Analyzer, MS-Excel 2000 Spreadsheet Add-In, Oracle 9i, Windows NT 4.0

Financials Client Chicago, IL

Feb 2003 – Dec 2004

Essbase Analyst / Essbase Developer

HSBC Bank, an international bank, which already had a well established Hyperion Essbase, required some minor cube additions to the existing suite of main applications for its local usage for approving loans and credits to its consumers and departmental analysis which was successfully completed during the contract.

Roles & Responsibilities:

- Implemented **Essbase** in connection with **financial budgeting, sales forecasting** and **marketing analysis** to produce ad-hoc reports
- Translated end user requirements into application design specifications
- Assured optimal match between **cube design** and **report specifications**
- **Optimized** structure, loading and calculations through appropriate **dense** and **sparse** settings of **dimensions, storage allocations** and by **dynamic calculations** and **debugging**
- Optimized cache settings, established **user security**, managed applications migration, established substitution variables and settings for dynamic time series, **asynchronous processing, editing/validating scripts**
- Developed **OLAP** models and **meta-outlines** designed through **Essbase Integration Services**
- Managed system upgrades and client installations based on users' requirements
- **Migrated** database from version **6.2 to 6.5**
- Developed **four cubes** – Developed **four cubes** – one for **HSBC Loans**, one for **HSBC Credits**, one for **Market Research** and one for **Customer Analysis**.
- Handled **performance tuning**, weekly back-ups and monthly consolidations of data and automated monthly/quarterly/annual report generation
- Developed **Analyzer OLAP views** and sophisticated what-if scenarios for the end users
- Documented and issued **procedures** pertaining to Essbase applications

- Provided business analysts with advice and options on opportunities to leverage the tool and increase usage
- Involved in checking the status and progress of each planning unit so as to analyze variances in real time, revise, promote, reject and approve plans.

Environment: Hyperion Essbase 6.2/6.5, EAS 6.5.1, Excel Spreadsheet Add-In, EIS 6.5, Hyperion Analyzer 6.5, Hyperion Planning 3.3, Hyperion Reports, Windows 2000

Retail Client, Framingham, MA
Essbase Developer

Launched in May 1986 Staples is now a \$13 billion retailer of office supplies, business services, furniture and technology to consumers and businesses from home-based businesses to Fortune 500 companies in North America and throughout Europe. Customers can shop with Staples however they choose, either by walking in, calling in or logging on. All Staple superstores have Internet Access Points to Staples.com, expanding available offerings to 45,000 products and dozens of business services. To keep track of this huge amount of data, Essbase was used to keep track of all the sales that were taking place in various places.

Roles & Responsibilities:

- **Installed Essbase** family products in both Windows 2000/NT and UNIX (Sun-Solaris) environments.
- Produced the functional design documents and specification for the **Essbase** modules.
- **Maintained** two previous **Essbase** cubes.
- Involved in script writing for **dynamic dimension** builds and **data loads**.
- Worked on **performance tuning** of data loads and calculation times.
- Designed and developed **calc scripts**.
- Used **ESSCMD** extensively to run calc scripts.
- Developed the **Load Rules** to automatically **validate** the data and feed into **Essbase** new structure.
- Developed report scripts to **populate data**, which was fed into the other cube.
- Created **batch files** to run calc scripts, data load and data calculations.
- Extensively worked with Hyperion **Reports** and Hyperion **Analyzer**.

Environment: Hyperion **Essbase 6.1/6.0**, **ESSCMD**, Hyperion **Analyzer**, **Excel Add-In**, MS Project, Oracle, Windows NT/2000, **Hyperion Reports**, Sun-Solaris, UNIX

The Davey Tree Expert Company, Kent, OH
Oracle Developer / OLAP Developer

Mar 2001 – Sep 2002

The company is a utility company in tree cutting, plantation and tree maintenance with headquarters in Kent, Ohio. It has branches in Toronto, Canada and all over USA. The company has oracle 8i backend and was in the process of implementing SAP.

Role & Responsibilities:

- Assisted senior DBA in installations and upgrades of various Oracle products.
- Configured the oracle enterprise editions on the user computers, based on the security specifications given by the senior DBA.

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Created SQL scripts for creating tables, views, and stored procedures, loading data into the tables.
- Created PL/SQL scripts for two custom applications. One application accessed the inventory of the various servers and connections and the other application accessed the disaster recovery database for the IT support group.
- Configured test and development servers with the help of system administrator.
- Wrote VB scripts to automate the creation of users and mailboxes in Exchange server 5.5
- Responsible for moving cubes to production server for the sales department, which used Hyperion Essbase as their OLAP server. I was sent to boot camp for Hyperion Essbase learning due to my interest in OLAP Technology.

Environment: Oracle 7.x, Win2000, PI/SQL, UNIX

System Administrator

Role & Responsibilities:

- Documented and maintained **Oracle databases** for material management, staff management, payroll, administration, cost data, estimates, billing and accounting and revenue records at division level.
- Done **SQL scripting** for querying and generated reports for analysis and improvement
- Designed, developed and tuned an Oracle database for the Budgeting and Planning department, Billing and Revenue department and Stores Inventory
- **Data Modeling, database design and development, Performance & tuning**
- Re-engineered the application entry system from DB2 to Oracle environment
- Gathered statistics and assisted with database development and administration for a statewide distributed system of about **50 Oracle databases**.

Environment: Windows 98/2000, Oracle 7.0

Education / Certifications

- **Bachelor's in Computer Engineering**
South Gujarat University, Surat, India
