Senior Hyperion Essbase Developer – Cendien – Hyperion Experts

Hyperion Professional Services

- Over 6 years of professional experience and 5 years of experience as Hyperion Consultant.
- Solid Experience in data warehousing with major focus on design and development of Hyperion Essbase Applications.
- Functional experience in design, analysis, development and implementation of various applications in Client/Server environment using Hyperion Essbase, Essbase Integration Server, Hyperion Reports, HAL, Hyperion Performance Suite, Hyperion System 9 Interactive Reporting, Brio, ESSCMD, Essbase Spreadsheet AddIn Services under Windows and Unix environment.
- Expert in Dynamic dimension build methods, Calculation Scripts, MaxL Scripts, Partitioning, Dimension and Data Load Rules.
- Involved in writing custom Essbase calculations scripts, automated the Essbase Cubes using ESSCMD, MAXL and Batch Scripts.
- Strong software documentation and technical report writing skills with strong leadership qualities.
- Expert in developing multiple reports, Interface programs and Complex reports using Hyperion.
- Strong knowledge on Client/Server Technologies, Web Designing, Data warehousing, OLAP, OLTP, Reporting applications and Business Analysis.
- Expertise in working with databases like Oracle, MS SQL Server and MS Access.
- Ability to interact with End Users, Managers and Technical Personnel, self-motivated and team player.
- Strong analytical, project management and problem solving skills.
- Extensive background in data modeling and analysis using Essbase, Analysis Services, Access, and Excel.
- Excellent verbal and written communication/presentation skills.

Hyperion Technical Skills

OLAP Tools: Hyperion Essbase 7.x/6.x, Essbase Integration Services 6.x, ESSCMD, MaxL, Hyperion Planning 3.1, H.A.L, ESSCMD, MAXL, Hyperion Reports 7.x, Hyperion Analyzer 7.x, Hyperion Interactive Reporting System 9.2, Hyperion Intelligence 8.x/Brio Intelligence 6.x, Shared Services, Workspace, Hyperion Performance Suite 8.2/Brio Enterprise Suite 6.x.

RDMS: Oracle 9i/8i/8.0/7.0, DB2, MS SQL Server 2000, MS Access.

Programming SQL, PL/SQL, C/C++, Java, Visual Basic 6.0.
Languages:

Web Tools: XHTML, XML, Java Script, MS Front Page, PHP.

Operating Systems: Windows 95/98/2000/NT/XP, UNIX.

Hyperion Clients / Experience

Insurance Client, Essbase Developer

Main aim of this project is to develop the Finance cube, which can provide data to the end users across the world with the 2005 budget forecasting and planning. The application provides information about the expense, Interest earned, revenues, Consolidated Profit and loss, etc. Data to the cube was loaded by PeopleSoft EPM. The data was loaded for a particular combination of the application members and then Calc Scripts were written to populate the data across the cube. The Cube was refreshed twice a day.

Roles and Responsibilities

- Involved in all phases of the Software Development Life Cycle (SDLC) for the Finance cube like, Development, Testing and Production and Reporting.
- Assisted in gathering data and requirement analysis.
- Implemented Essbase in connection with financial budgeting, sales forecasting and marketing analysis to produce ad-hoc reports.
- Developed Batch files and Created Rule files for multi-dimensional databases, to upload data from financial systems database to EssBase cube.
- Created OLAP Model and Meta Outline for EssBase OLAP Server using EssBase Integration Services (EIS).
- Involved in building applications by automating the process to minimize the data load time
- Analyzed all dimensions and members in the EssBase outline.
- Implemented calculation engine that includes robust mathematical functions for computing derived data.
- Implemented star schema and used EIS to interface with the company's existing Oracle data warehouse.
- Created various filters as per user requirement in EIS.
- Designed and developed numerous EssBase applications with excellent balance of dense and sparse dimensions, arranged in an hourglass fashion.
- Implemented robust data-access security and user management.
- Developed Excel Templates for user interface in EssBase database.
- Prepared Profitability Reports, which detail Unit Cost, Price and Volume Trends, and Expense Variances over prior periods.
- Involved in defining requirements, functional specifications, designing documentations and testing strategies.
- Developed and generated reports using Hyperion Analyzer and Hyperion Reports to the finance business users.

Environment: Hyperion EssBase 7.1.5/7.1.2, Hyperion Analyzer 7.2, Hyperion Reports 7.0, EssBase Integration Services 7.0, Visual Basic 6.0, Microsoft Excel 2000, Oracle 9i, Windows NT 4.0.

Shipping Client

Hyperion Essbase Developer/Analyst

The Client is the world's largest express transportation company with a mission to produce superior financial returns with highest quality solutions. The major role of the project was to develop different cubes to integrate Essbase applications for reporting using analyzer. Essbase Integration Services (EIS) were used to load and update the Essbase cubes.

Roles and Responsibilities

- Created Users and Groups in Hyperion Essbase, Hyperion Reports and Hyperion Analyzer and assigned privileges to them.
- Applied security on different applications by creating Filters on its dimension members.
- Developed automation scripts for back up and Refresh of all Production Cubes during recovery.
- Involved in reviewing the cube design, Performance Monitoring and Performance Tuning of the Essbase server.
- Installation and setting up of the server with Hyperion Essbase, Hyperion Analyzer, HAL, and Hyperion Reports.
- Developed EIS Meta-outline for the cube and created various filters as per user requirement.
- Created Transparent Partitioning on databases using MaxL scripts.
- Created and made changes to the existing MaxL Scripts and scheduled the batch script to automate the running of the new Calc Scripts with development of outlines and load rules.
- Analyzed and loaded data from Excel and also, developed VBA interfaces to load data from excel.
- Designed and developed all the reports using Hyperion Reports 7.2, Hyperion Analyzer 7.2, Brio, Hyperion Intelligence 8.3.
- Filtering out information using dashboards to make better decisions on the provided reports.

Environment: Hyperion Essbase 7.x, EAS, Hyperion Reports 7.2, Brio, Hyperion Intelligence 8.3, HAL, Hyperion Analyzer 7.0, Hyperion Dashboard, Microsoft Excel 2000, MS SQL Server 7.0, Oracle 8i, and Windows 2000 Advanced Server

Healthcare Client

Hyperion Intelligence/Essbase Developer

The client is one of the Nation's leading providers in the musculoskeletal outpatient rehabilitation industry, with over 350 points of service in 19 states. The Client has service lines which include outpatient therapy, orthotics and prosthetics, and industrial rehabilitation. The project involved building a cube, putting the processes for automation and designing and generating reports and dashboards for helping the management with the financial reports and decision making.

Roles and Responsibilities

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: 214-245-4580 Fax: 972-559-1184

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Was involved in the installation, configuration, and administration of the Hyperion/Brio Performance Suite product packages such as Designer, Explorer.
- Did reporting, charting and spotlighting using Dashboards.
- Models were used to analyze many business issues and to integrate the strategic planning processes. Developed user friendly reports and graphs self contained in financial models.
- Extensively worked with Hyperion Reports and Hyperion Analyzer to generate financial reports from different Multi-Dimension Databases.
- Optimized the applications to bring down calc runtime and database size considerably.
- Designed and implemented batch scripts for loading data from the financial system's database to Essbase cube through data files and rule files.
- Designed users input capability to the applications maintained by Filters.

Environment: Hyperion Intelligence 8.1, Essbase 6.5, Hyperion Planning 3.1, Hyperion Application Link, Hyperion Essbase Integration Services 6.5, Hyperion Analyzer 6.5, Essbase Spreadsheet Add-in, SQL Scripting, MS Access, MS-SQL Server, Windows 2000/NT.

Financial Institution Client Essbase Developer

The Client is one of the biggest banks in the nation. The Client operates in multiple lines of business like commercial, credit, commercial real estate, etc. The project involved developing a Essbase Application to cater to specialized reporting needs. The reporting cube was developed to create reports like GL Flash, Monthly Scorecard, and Weekly GL.

The main objective of the project was to bring data from multiple Essbase cube using the Essbase Partitioning option. A summary reporting cube was developed with transparent partition to Essbase cubes for the various business divisions.

Roles and Responsibilities

- Was involved in collecting requirement and requirement analysis.
- Involved in the designing the dimensions.
- Developed Calc scripts, member formulas and business rules to implement business logic.
- Responsible to solve the performance issues in the reports.
- Designed and developed financial and management reports using Hyperion Reports.
- Responsible for solving the reports issues related to tool with the help of Hyperion tech support.
- Testing of Hyperion reports and training the users in the new Hyperion reports.
- Developed Analyzer views for ad-hoc management financial reports using the Hyperion Analyzer.

Environment: Hyperion Essbase 6.5.4, Hyperion Reporting 2.6, Oracle 9.i, Hyperion Analyzer 6.5, Windows NT, Unix, Web logic server, Essbase Excel Add-in.

Retail Client

Hyperion Essbase Administrator/Developer

The aim of the project was to provide the top management and end users, a fully functional data warehouse for each of the business segments separately and as per the user requirements. Development of various cubes, developing calc scripts, developing load rules forecast and budgeting for the next 24 months, combining various cubes, SQL performance tuning, optimization of calc time, were few of the performed tasks.

Roles and Responsibilities

- Developed a multi-dimensional database (MDDDB) application using Essbase that stored and maintained company's financial and marketing data and performed the loading and manipulation of data into the database using Load Rules files
- Created Calc scripts using the Calc script editor for performing calculations.
- Developed and maintained Rule files, Calc Scripts, Esscmds & MaxL Scripts.
- Automated the Essbase Cubes using Esscmds and Batch Scripts.
- Optimization and performance tuning for Data Load/Calculations.
- Essbase Development and Maintenance of Essbase Cubes.
- Developed Data Load, Calc and Report scripts for version 6.x.
- Developed reports for financial department and other business units.
- Responsible for producing the functional design documents and specifications for the Essbase modules.
- Essbase application optimization, conversion, and maintenance.
- Performed software installation and configuration, server settings, client installation and packages.
- Trained users for new XP excel add-in features.
- Granted access to other users based on their specific needs and assigned them to specific groups. Set filters to restrict access to users based on the authority they have.
- Provided technical support to all business units, offered suggestions and proposed solutions to resolve issues.

Environment: Hyperion Essbase 6.1/6.5.1, Hyperion Analyzer, Hyperion Reports 2.0, Essbase Excel Add in, MS SQL Server, and Windows NT 4.0.

IT Solutions Client,

Database Designer/Developer

A leading project management firm, I was given the opportunity to work among many different in house projects of their clients throughout the nation. Executed this specific project for a leading manufacturer, distributor of kitchen appliances in Southern India. Developed a billing and sales system that deals with Agencies, ads, scheduling, Billing, Receipts, Debit Notes and Credit Notes.

Roles and Responsibilities

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: 214-245-4580 Fax: 972-559-1184
