Senior Lawson Developer – Cendien – Lawson Experts

Lawson Professional Services

Lawson ERP Technical Consultant with 25 years experience in health care information technology. Specializing in Lawson ERP software implementations, and support for last 8 years. Expert in Lawson Case/4GL program design, analysis and application development for all Lawson Suites. Knowledgeable in Lawson's Portal and Self-service applications. Technical software and hardware experience with UNIX and Windows OS. I am seeking a full time technical position with an ERP Lawson consulting firm as a traveling or remote consultant, or permanent placement.

Lawson Clients / Experience

Health Care Client
Contract Programmer

- Member the client's contract programming staff which provides programming services for the client's implementation of Lawson environment 8.0.3 ESP 7 and Lawson 8.1 applications. Goal of project is to combine the legacy HR systems from the client into one Lawson system.
- Conversion of legacy custom HR mainframe COBOL programs to Lawson 4GL.
- Writing, testing, debugging with HR/PR end users inbound and outbound interfaces.
- Work with third party vendors on acceptance testing of interfaces.
- Run and monitor HR/PR conversion programs when loading legacy data into new Lawson DB2 data base structures.
- Complete documentation of programs and interfaces according to Mayo standards.
- Install Lawson application CTP's and PT'S and provide acceptance testing.
- Work with numerous HR users on variety of HR acceptance testing tasks.

Software Client
Consultant

- Provide Lawson technical services to public and private sector clients.
- Duties included: writing Lawson functional and technical program designs, maintenance of Lawson 8.x and 9.x application security, writing custom purchase orders and invoices using Crystal Reports 10, Lawson's OLE-DB interface, and publishing to Reporting Services.

Health Care Client
Technical Consultant III

- Lawson 8.x Delivery and Implementation Services for new and upgrade customers.

- Custom 4GL programming and interfaces for Lawson Finance, Human Resources and Procurement clients.
- Installation of Lawson environment and application software in UNIX and WINDOWS environment.
- On-site installation and training of Lawson EDI, Lawson Handheld & Fax Integrator.
- Installation, configuration, and customization of Lawson Portal Self-Service applications.
- Delivery and support of Lawson Reporting Suite: Framework & Reporting Services, Smart Notification, and Instant Messaging.
- Lawson Conversions services for Finance, Procurement and Human Resources.

Software Client
Sr. Application Developer

- Design and program development for Lawson (ERP) Procurement Suite Applications.
- Developed and modified software in following systems: Purchase Order, Requisitions, Inventory Control, Accounts Payable. Knowledgeable with interfaces to General Ledger, Activity Mgnt., Invoicing, Order Entry.
- Knowledgeable in Lawson's complete company setup from GL accounts through most applications.
- Program testing with all user interfaces: LID, graphical user interface (GUI), XML and Portal.
- Programming applications to interface data from Non-Lawson sources into Procurement System.
- Member of Lawson database reorganization team. Responsible for performing weekly database reorgs.

Health Care Client
