Lawson Clients / Experience

Software Client

Technical Consultant

Create custom HR/PR/BN/AP report, interface and data correction programs using Lawson's 4GL CASE tool. Create new MS-SQL tablespaces, data areas and indexes and load data into newly created tables. Perform code and design reviews and establish program documentation standards. Provide knowledge transfer training to the client's in-house technical staff. Support, maintain, troubleshoot and apply patches to client Lawson 8.x applications suites.

Software Client

Technology Consultant

Provided technical support for Lawson application and data upgrades. Created custom AP interface and report programs using Lawson's 4GL CASE tool. Taught Lawson's "UNIX/Windows NT Upgrade Workshop" class.

Retail Client

Technical Consultant

Provided technical support for Lawson software implementations. Performed data mapping, conversion, loading and correction. Created custom HR/PR/BN/AC/IC interface, report, conversion and data correction programs. Developed program documentation standards. Provided knowledge transfer training to the client's in-house technical staff.

Utility Company Client

Systems Analyst/Relationship Manager/ Trainer

Developed and maintained applications for an IMS DB/DC, PL/I based Customer Information and Billing System and a suite of Lotus Notes applications. Managed the relationship between our Information Services department and internal users of I.S. department services. Provided corporate-wide training in team-building concepts and in the concepts of Stephen Covey's "The Seven Habits of Highly Effective People".

Insurance Client

Senior Programmer Analyst -

Developed and maintained an IMS DB/DC, COBOL based Premium & Commission and Claims Administration system. Developed PC based applications in dBase III+ and Micro Focus COBOL. Developed user manuals and conducted client training sessions for newly developed PC based applications.

Education / Certifications

B.S. California State University
