Senior Oracle Developer – Cendien – Oracle Experts

Oracle Professional Services

- Seven years of IT experience in all phases of software development life cycle including analysis, design, development, testing and implementation, which includes four years in the United States.
- Good experience in Business Objects Suite (5.x/6.x/XIR2), Designer, Desktop Intelligence, Web Intelligence, Broad Cast Agent, Central Management Console/ Supervisor, Performance Management/ Application Foundation.
- Extensive and proven experience using Oracle 9i/8i/8.0/7.x, SQL, PL/SQL, SQL, Forms 6i/5.0, Reports 6i/3.0, SQL*Loader, UNIX (Shell Scripts), JAVA, PERL, PRO*C on UNIX and Windows NT/2000/95 platforms.
- Strong experience in designing, building medium to large-scale client-server applications using Oracle, PL/SQL, Stored procedures.
- Extensive working knowledge in Analysis, Design, Documentation and Deployment.
- Performed Data Migrations using SQL*Loader and PL/SQL scripts. Developed SQL.
- Programmed to load data from Excel file into temporary table and developed PL/SQL program to load data from temporary table into base Tables.
- Involved in various activities like preparation of functional and technical documents, discussions with the client regarding the proposed solution, PL/SQL programs scripts, related reports and forms, unit level and user acceptance testing.
- Extensive experience in writing SQL queries, Procedures, Functions and Triggers. Strong Math Fundamentals with problem solving and analytical skills.
- Performing and monitoring Database Backup and Recovery.
- Expert in using Database Tool like SQL * Loader, Import and Export.
- Used Repository manager to create Repository, User groups, Users and managed users by setting up their privileges and profiles.
- Have excellent analytical abilities & strong work ethic. Consistently demonstrated strong teamwork and ability to make a long-term commitment to projects.
- Experience in Designing, Building and maintaining the universes, resolving the issues like loops and Traps using Alias and Context.
- Handled administrative tasks via Business Objects XI R1/R2 for reports publishing, scheduling and user security. Set up predefined access levels for the deployed reports. Setup the new user group and assign the security privileges to inherit to all added users to the group. Gathered requirements and wrote functional and technical specifications for developing crystal reports.

Oracle Technical Skills

Oracle 10g/9i/8i/8.0/7.x, Ms-Access, SQL, PL/SQL, TSQL, C, C++, PRO*C, SQL*Plus, Java2, Forms 6i/5.0/4.5, Reports 6i/3.0/2.5, V.B 6.0/5.0, SQL*Loader, ETL, TOAD, SQL Navigator, Export/Import, SQL*Net/Net 8, HTML, DHTML, XML Schema, Perl, Java Script, MS-Office, MS-Word, Excel, Power

Point, Windows NT/XP/2000/98/95, MS-DOS, UNIX , Business Intelligence Tools Business Objects XI R2/ 6.x/5.x (CMC, Designer, Desktop Intelligence, Web Intelligence, Info View, BCA, Import Wizard), Crystal Reports XI.

Oracle Clients / Experience

Financial Client

Oracle Developer (SQL, PL/SQL)

- Involved in System Analysis, Design, Coding, Testing, Data conversion, Development and Implementation.
- Coded SQL Scripts to create the Development Database, Testing Database, Production Database, including Table spaces, added data files to table spaces, managed redo log files & control files, Rollback segments creation, Users, Synonyms, Roles, profiles.
- Involved in creation of Database Tables, Global Temporary Tables, Cluster Tables, Partition Tables, and Index-by Tables using storage parameters, created Database Links and Snapshots using Oracle 9i.
- Extensively involved in writing SQL queries (Sub queries and Join conditions), PL/SQL programming.
- Involved in creation of Sequences for automatic generation of voucher numbers and views for hiding.
- Written many stored procedures, stored functions, Packages and used in many Forms and Reports. Importing/Exporting data from/to different databases using utilities like SQL*Loader, Import/Export, Texptr Package and Copy Command (Migration).
- Involved in writing External Routines using Pro*C and PL/SQL Wrappers.
- Written many database triggers for automatic updating the tables and views.
- Involved in doing Service Center Tickets every day depending on the severity level.
- Involved in interaction with the End Users and implemented reviews of the application.

Environment:

Oracle 9i/8i Pro*C, SQL*Plus 8.6, PL/SQL 8.6, Designer/2000, SQL*Loader, UNIX (IBM AIX 4.0), Windows NT/2000/95, SQL Navigator 4.3, MS Outlook 98/2000

Financial Client

Oracle Developer

- Involved in CBO - Cost Based Optimization. Did designing, PL/SQL programming and worked in ETL applications, SQL tuning and data modeling.
- Created PL/SQL, Stored Procedures, Functions and created several database triggers for implementing integrity constraints. Developed DLL's and Scripts and did SQL loading.
- Involved in creating SQL queries. Developed forms and reports using Forms 4.5 and Reports 2.5. Re-linked Oracle applications programs.
- Wrote SQL statements, SQL Query tuning, views, cursors, schemas and PL/SQL code.
- Created SQL*plus reports as per client's various needs, and developed business objects.

Cendien Consulting

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Involved in creating package, external and stored procedures and database triggers.
- Involved in Software Code Analysis.
- Developed database triggers include the part of an existing trigger framework
- Implemented in PL / SQL code and external procedures. Analyzed existing trigger framework.

Environment:

Oracle 9i, PL/SQL, SQL*Loader, Stored Procedures, SQL Query, DLL, Forms 5.0, Reports 3.5, SQL, WindowsNT/2000/98

Technology Client

Oracle Developer - DBA

During the development of Integrated Material System, I was working as an Oracle Developer, involved in Designing Logical and Physical Structure of the Database, Installing Oracle, Creating Oracle Database, Creating table spaces, Creating Users, Backup and Recovery Strategy, Performing Backup and Recovery, Performance Tuning.

Responsibilities:

- Extensively worked in Client-Server application development using Oracle 9i/8i/7.x, PL/SQL, SQL*Plus, SQL*Loader, SQL Trace, Explain Plan, Pro*C.
- Extensively worked on Procedures, functions, stored packages, database triggers.
- Extensively worked on Shell Scripting for automating the jobs.
- Held positions where major responsibilities included coding and unit testing reports.
- Involved in DBA activities like taking Physical backup / Logical Backup and space management.
- Involved in writing PL/SQL Packages, Functions and Stored Procedures and DBTriggers.
- Writing stored procedures and complex SQL queries.
- Involved in database activities like taking logical Backups using import and export Utilities.
- Developed database objects like tables, views, indexes, and sequences.
- Wrote SQL Scripts for reports and creating views for reports.

Environment:

Oracle 7.x, PL/SQL, Stored Procedure, SQL*Loader, Solaris 7 and NT 4.0, Microsoft Visual Basic 6.0, Oracle 8i, Windows NT

Technology Client

Oracle Developer

Responsibilities:

- The reports were built to help the top-management and policy-makers of the department to perform different types of analysis. The reports enabled the top-management to discover the trends in sales & purchases across the financial year. The development and deployment of reporting system using Business Intelligence technology.
- Actively involved in Analysis of the product. Creating and maintaining the data base. Connecting and querying the database. Interacting with team members. Testing and debugging the errors. Implementing the code. Developed technical and documentation of the project.

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Developed complex Oracle forms providing extensive GUI features (multi-selects drag and drop, graphical charts, mail notifications, automated system alerts and notifications, System Timers etc).
- Extensively written PL/SQL code for Procedures, Functions, Packages, Libraries and other database triggers etc.
- Written interfaces to transfer/interact data with various external systems.
- Created and standardized object libraries and coding standards. Implemented various code-review procedures for achieving consistent look and feel across the application.
- Created form templates and report templates. Creating visual attributes, property classes, object libraries and sub classed them to objects in the form to give a standard look and feel. Used reusable components.
- Added calendar list of values window to buttons associated with date items. Created timers to repeat certain processes after a certain time interval expires.
- Designed and developed reports of important shipping documents such as Chain of Custody, Transfer of Samples to Lab, Label printing etc.
- Managing Table spaces, Rollback segment, Indexes for various applications like Financials Accounts, Inventory Control System and Payroll & Personnel Administration System.
- Designing tables before creation. I am responsible for planning and setting storage parameters for tables based on information from the programming staff about how application works and the type of data expected.
- Ensuring the database backup is regular by doing regular offline table spaces and data files backup.
- Gathered requirements from end users to create reports. Built full client and Web Intelligence reports. Created Ad-hoc reports using Business Objects functionalities like Slice and Dice, Drill Down, @Functions, Cross Tab, Master Detail and Formulas etc.
- Created Report Templates for consistency in the look and feel of the reports. Created graphical representation of reports such as Bar charts,
- Pie charts as per End user requirements. Created variables, formulae and detail objects at report level. Created User Prompts, Conditions and Filters, Alerter to improve the report generation.
- Used various Business objects functionalities like Sections, Breaks and in generating documents. Scheduling and monitoring reports using Broadcast Agent server.

Oracle Education / Certifications

Master in Computer Science
B.Sc. Computer Engineering
