

Senior Oracle Developer

Call us today to schedule this resource.

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

Senior Oracle Developer – Cendien – Oracle Experts

Oracle Professional Services

- Database development, administration, System analysts and Web development, system and application deployment and software engineering and Capacity and storage Management..
- As a Consultant for Oracle Corporation with experience as development DBA and developer with experience in implementation of Client Server, Web Applications, Financial Application and other ERP Packages and interface development. Sql Server 2005, Altiris, HP OpenView, SAP interface tools and Configuration Database.
- Daily database administration creation and monitoring of users and roles determining space capacity and all security, Performed client server ftp, archived data, sql tuning, backup & recovery, developed and managed database objects.
- Performed Web, Linux, Unix, Oracle Server installation and Administration. Unix Shell Scripting and Datawarehouse reporting using ETL, Crystal Report, Abnition and other warehouse reporting tools. Extensive experience and formally trained in Oracle Express and Lawson. extensive experience with PeopleSoft, SAP, Lawson CASE Tools, Peregrine, EDI Gentran Gateway, database daily administration and maintenance.
- Full Life Cycle methodologies experience including: coding, analysis, design, and implementation of large-scale business application systems migration for Y2K. Projects worked on include: Oracle Teradata and other Database development, administration, support and Web development, Data warehousing, Customized ERP Packages in Financials, Interface, Licensing and EDI eCommerce. SQL Skills and Oracle APIs.
- Extensive experience installing, maintaining and supporting Oracle Database products and third party products and interfacing with Materials Management, SAP, J.E.Edwards, Mainframes other
- Oracle Financial Modules, License Modules, Cash Modules, OLAP, OLTP, Oracle Client Server or Web Based Applications data warehouse and ETL utilization.
- Extensive experience in Oracle 9i/8i/ 8.0/ 7.x, Oracle 9i, 11i Application Server, PL/SQL 8.0, Developer 6i/6/4.5/3.0, SQL*LOADER, SQLPLUS, MS Access, Visual Basic, MS SQL Server
- Demonstrated personal initiative and ability to multi-task effectively with exceptional design patterns and coding skills, along with interest and ability to mentor developers and or users.

Oracle Technical Skills

Oracle Education – Other Programming Training:

- Oracle Enterprise Architecture and Administration, Oracle Express, Oracle 8 & 8i Database
- Data Modeling and Relational Database Design (RDBMS), Oracle SQL & PL/SQL,
- Develop PL/SQL Program Units, Advanced SQL/PLSQL, Oracle Developer Forms and reports.
- Oracle Designer 6i, Oracle Backup and Recovery, Oracle Financials(A/R, A/P, GL, Fixed Asset),
- Oracle JDeveloper with Java, Implementing and Administering Oracle Web Servers,
- Oracle Web Authoring and Publishing Oracle Application Server 4.0.8:
- Develop Web-Based Applications with PL/SQL

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: **214-245-4580** Fax: **972-559-1184**

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- SAP, PeopleSoft, Gentran EDI, Lawson, Cognos, Portal and Dashboard Development

Oracle Products:

ORACLE Foundation, Designer/2000, Developer/2000, Oracle Forms (4.5), Reports(2.5/3.0), Database Design and Concepts, Power Objects, RDBMS 6.0, SQL, SQL*PLUS, Advanced SQL, Oracle Applications Object Library with SQL*Forms, Oracle Financials (G/L, A/R & A/P), Web Server, Oracle Express, Web Authoring and Publishing, Discoverer 3.0, Oracle Databases Versions 7, 8, 8i, 9i, Oracle Enterprise Manager, Sql loader, Oracle Designer 6i, Oracle JDeveloper, Oracle Application Server(OAS), Oracle Web Server (OWS). Oracle 9iAs 11i, SAP ABAP, SAP Financials, Oracle Web Forms, Oracle Portal, LicenseEase Oracle Web Forms Application, Oracle Portal, Oracle WebDb, External Tables.

Other Products:

MS Office Suite ,Netscape/IE browsers, Peoplesoft, Lotus, Visual Basic5, Websphere, Exceed, IBM, Gentran EDI/E-Commerce, IBM, IMS, Lawson CASE, Microfocus, PVCS, Test Director, Ultra Edit, Quest TOAD/SQL Navigator , Cognos and Cisco Systems Secure VPN Client, MS SQL Server, FoxPro , HP OpenView and Peregrine Connect-It for SAP Interface and Visio.

Operating Systems:

HP-UX/2000/9000 Sun 2000/Solaris, UNIX, VMS/VAX, AS400, IBM 36/38, DOS, Novell, Netware 3.0. MS Windows 3.1/95/NT/2000/XP/Vista.

Languages:

SQL, PL/SQL, Unix Shell scripting, Visual Basic, PL/SQL cartridges for OWS C, HTML & /SQL, JavaScripts, Transact SQL, Java, Cobol, Basic, Perl,, Pro* C, HTML and other Web based languages, UNIX for Users, UNIX Shell Programming, XML/DHTML and Peregrine Connect-It Scripting Language

Networks:

TCP/IP Protocol, Sockets, Servers/Clients, Internet, Intranet, World Wide Web, LAN Wide Area Networks and DSN and VPN.

Oracle Clients / Experience

Manufacturing Client

Principal Consultant – Contractor

Asset Management Database Administrator and Performance Analyst

Asset Management database Administration working with Altiris and Mssql Server and Interfacing with SAP ConnectIt tool. Worked on the Interface of Altiris to Asset Center Databases using Sql Server 2005 for the Virginia Information Technology Agency (VITA) Project. Duties included development of applications and processes that capture, store, analyze, calculate and forward Resource Unit Metrics (for all service towers) for SLA to a Resource Unit Metrics Repository all data required to support Chargeback and Billing functions to a Managed Services customer. Performed Full Life Cycle Processes including Functional specification designs, Business and Use Cases and Interfaces with SAP, Lawson, Altiris, Peregrine and SQLServer 2005 Databases, HP OpenView and

Cendien Consulting

the Configuration Management Database, system integration, enterprise architecture and infrastructure solutions and Reporting using Crystal Reports v11 SP2. Performed database administration and development, performance tuning and capacity Management, created objects such as views, databases, tables, Import/Export, SSIS Packages, using the Intergration and notification services, Sql Server Agents, proxies, error logs and security. Performed System Support including nightly scheduled jobs and reporting. Prepared Design and interface document and scripting for the Asset Management team

Telecommunication Client

Principal Consultant (Enterprise Technical Architect)

Technology: Supporting the Application Technical Team Support – DMHRSI Oracle Human Resource Application.

Provided daily support to technical aspects of the DMHRSi Application Including Interfaces

- Used Oracle SQL and PL/SQL Query Programming, and other tools for the full life cycle support.
- Worked on the Dual Labor Costing Extension project using pl/sql, Oracle database and Oracle 11i Application using Concurement Manager and as Application System Administrator and user support and front end application functions. Assessed requirements, risk management and development of life cycle plans and documentations. Develop Oracle procedures, functions, packages including application and database triggers. Performed Oracle 10g Oracle Database Administrative and backend functions. Created tables, tablespaces, schemas, views, packages, Stored procedures etc using TOAD. Created test plans, perform unit and system tests. Prepare documentation and other functions as needed. Other functions include providing support for the Discoverer and other applications utilized by the client and working on projects as assigned. Business analysis and requirement gathering and system analysis functions. Interfaces with users, agencies, divisions and other departments to gather needed requirements.

Government Client

Sr. Technical Oracle Database/Application Consultant

Technology: Implemented the Department of Virginia Social Services Licensing Division. Dolphin LicenseEase Letter, Cash, Licensing, Inspection modules Oracle Web form Application 11i using Oracle 9i database backend.

Responsibilities:

- Duties include Oracle database, Server, Client, Application configuration and installation
- Database development and administration and Oracle Application 11i Dolphin Letter Generator Application.
- Administration using TOAD and other external tools such as MS Word, F-Secure
- Setup the screens, reports and forms in the LicenseEase in different modules.
- Performed database, tablespace, schema, development, utilizing Navigator 2000, SQL Modeler Entity Relational Diagrams and logical and physical databases generation.

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: **214-245-4580** Fax: **972-559-1184**

Senior Oracle Developer

Call us today to schedule this resource.

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Created tables, tablespaces, schemas, views, packages, Stored procedures etc using TOAD. Developed using PL/SQL Sed/Awk/Grep Perl, Cron, and Shell Scripting (Borne, Korn)
- Performed data transfers, import export, migration to data warehouse/mining, Oracle 7.3x, 8i, 9i 11ai and other data migrations using sqlloader,, external tables, ftp, telnet, UNIX/Linux Script, F-Secure Client 5.2 Build 10.
- Used other external tools such as Navicat 2004 for SQL Streamlining and Administration. GNU utilities(cf engine, gcc, etc.).
- SQL on UNIX and Windows also Server and Network configuration Oracle Portal, Oracle 9iAS (Internet Application Server) installed Forms 6i support in OMS Repository, Oracle Enterprise Manager, Oracle Warehouse OLAP, Cognos and other ETL tools as needed.

Technology Client

Oracle Consultant / Lead Technical Client Server / Apps. Developer

Technology: Oracle 8.1.7, SQL*Navigator 4.1, PL/SQL, Korn Shell, Sync Sort, SQL*Loader, Performed System integration and migration of the Vendor Electronic Data Management application with mass email technology and vendor integration development projects. Installed Oracle 8i database client, Designer, Developer 2000 and other Oracle software and tools

Responsibilities:

- Developed data Entity diagrams, Server models using Oracle designer 2000 & 6.0.
- Analyzed complex business requirements to determine and deliver solutions and determine the best delivery and performance processes for customer satisfaction process improvements.
- Created and modified Logical and physical database models for database creation
- Used Oracle SQL and PL/SQL Programming, and other tools for the lifecycle requirements.
- Provided interface and application components support to the hardware operating system group.
- Developed Oracle procedures, functions, packages including application and database triggers.
- For Data import, export and migration used SQL Loader, Telnet and FTP.
- Used SQL Navigator and Toad for Database design, creating tables, indexes, tablespaces data manipulation and database monitoring and development and coding.
- For development and testing and version control used PVCS and Test Director.
- Used UNIX, Korn, Bourne shell scripting for backend development.
- Provided technology proposals as it related to technology and infrastructure designs for cost estimation.

Government Client

Senior Software Engineer

Technology: JAVA, J2EE, Websphere, XML, HTML, HTTP, C++, Object databases. Worked on the Combat Service Support Training Simulation System Architecture development on the WARSIM

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: **214-245-4580** Fax: **972-559-1184**

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

Logistic project with object oriented databases (JDACS/ODBC). Developed Java Server Pages(JSP), Servlets, using Java, J2EE, Javascripts and Java beans.

Responsibilities:

- Worked on the Combat Support Service Training Simulation System Translator in the Logistic Exercise Division maintain High Level Architecture (HLA)
- Migrated application from C++ in (VAX)DEC C to Java, JSP and , HTML, DHTML, XML,
- Implemented the new Aggregate Level Simulation Protocol (ALSP) application software using Java programming classes such as network classes etc.
- Perform distributed system development techniques
- Provided Application, Web Servers modeling and base Architecture support.
- Created and utilized TCP/IP Socket client/server for server communication.
- Assisted in other exercises and development within the Combat Service Support Training Simulation System Translated as needed.

Government Client

Senior Oracle Application DBA and Application Development Support / Database Administrator and Application Development Support. (Second Project)

Technology Oracle 7.*, 8.1.7, 8i, Oracle 9i, Oracle Developer 2000, Designer 2000, 6i, Oracle WebDb, Oracle Express, Oracle Enterprise Manager, TOAD, UNIX, Shell scripting, Oracle Application Server, Oracle Web Server, PL/SQL Web Cartridges, Provided Oracle Database and Unix System Administration, client server, web programming system integration support Performed Physical database design and implementation.

Responsibilities:

- Performed Oracle databases (non-application) capacity planning, system sizing architectural and Design.
- Created, configured, relocated Oracle databases, monitored applications.
- Performed application and database design, analysis, options, installation and configuration Oracle products.
- Performed code implementation for new application integration and migration from development /test/ Production
- Performance tuning and maintenance of Oracle instances and problem resolutions.
- Handled functional system change requests and provided direction implementation methodologies and functionalities.
- Developed, established, and provided input and maintained back-up/recovery procedures.
- Provided training to the DLA employees as required.
- UNIX Shell scripting monitoring and maintenance and other systems/processes a documentations.

Technology Client

Senior Oracle Consultant Development and Database Administration

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: **214-245-4580** Fax: **972-559-1184**

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

Technology: Oracle Database 8i and developed Oracle Application with Developer Forms and Reports, SQL, PL/SQL, Graphics, Procedure Builder, SQL*Plus, PL/SQL cartridges, Oracle Web Application. Y2K Application development, Systems Analysis, migration to Oracle and support. (First Project): Client: Defense General Supply Center Richmond, Virginia. Performed Y2K Conversion of many applications originally developed using different programming languages such as: C, C++, Unify, MS Access, SQL Server, Dbase, DB2, Cobol, Visual Basic, AS400 and other Mainframe languages to the following

Responsibilities:

- Created Oracle databases, tables, tablespaces, synonyms and user privileges, imported, exported data, other database environment variable setups as needed for development, testing & production.
- Creation of Business Requirement Document, Program Specifications, Data Modeling and creation of Process Flow Charts, ERD's and Data Flow Diagrams
- Created scripts for the creation of database objects like Tables, Triggers, Indexes, Sequences, Views, Table Constraints based on the Design Document.
- Developed Forms, Reports, PL/SQL Programs, Pro*C Programs and UNIX shell scripts.
- The PL/SQL Programs include Packages, Triggers, Stored Procedures, Functions, Alerts and Pipes.
- Performed Oracle Database and Application Performance Tuning such as SQL Statement Tuning
- Utilized Oracle 8i Features like Native Dynamic SQL, Objects, Nested Tables, V-Arrays, LOB's, System Triggers, Instead of Triggers, Partitions, Materialized Views, Bitmap Indexes .
- Developed Standard Templates for Forms and Reports.
- Developed Standards for objects like Visual Attributes, PL/SQL Libraries, Object Libraries, Object Groups, Windows, Canvases, Items, Alerts, property classes, tool bars, messages and Tool Tips.
- Deployed the system on Web using Developer 6i, Java and Oracle Application Server pl/sql web kit tool cartridges.
- Created over 250 client server / web reports and forms for the various applications.
- Writing SQL*LOADER scripts for data loading and mapping.
- Utilized Javascripts, Java and Netcharts for graphic development Unix Shell Scripting for migration to different platforms.
- Developed Korn shell scripts, cron jobs, SQL scripts Performed full lifecycle duties: analysis, design, development, testing and implementation.
- Worked on the backend database: development, testing, production environments.
- Used Different Shell Scripting for migration of data different environments.
- Client and user interaction for deployment of the system into a Year 2000 Compliant.
- Development of user manuals, technical manuals, and functional manuals.
- Other tasks included performing assessment for compliance, including testing, deployment

Government Client

Senior Programmer Analyst

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: 214-245-4580 Fax: 972-559-1184

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

Technology: Microsoft SQL Server Database Administration, MS Access Application Development and Visual Basic, Gentran, EDI Application, J. D. Edwards. Provided programming support for the EDI - Electronic Commerce Team.

Responsibilities

- Creation of User Requirements Document
- Creation of ERD's that captures the entire system design
- Design and creation, of the database objects including tables, triggers, indexes, partitions, views, sequences, synonyms
- Developed SQL, MS Access and Visual Basic Programs, developed logic flaws, planned and created test data and scheduled test requirements, performed program/application tests. performing parallel tests. Worked on the interface and testing for the implementation of the J. D. Edwards wholesale support system.
- Provided modification, enhancement and maintenance to existing programs and applications Implemented the Electronic Data Interchange system transactions including: trading partner Profiles Daily EDI production, with the translator, interchange, mailbox, gateway communication & client notification
- Created databases, tables, MS Access & MS Sql, Server Space allocation and maintained system privileges.
- For database and application optimization provided performance tuning and maintenance.
- Updating and upgrading EDI translator as needed.
- Prepared and maintained database, Unix and system scripts.
- Performed EDI system mapping, system configuration and forms integration.
- Prepared system documents and end user training documents.
- Provided technical guidance and leadership role to the fellow developers Extensive use of database stored packages for storing the business rules of the application
- Developed generic packages that are used enterprise wide
- Developed complex, forms and reports
- Developed user friendly utilities like tools for AD-HOC report generation
- Developed the coding, screen standards for the division
- Developed objects groups, property classes, visual attributes that are used as the standard for the system

Government Client

Application Programmer Analyst / Human Resource Peoplesoft and Oracle Financial Application

Technology used: PeopleSoft, Oracle, DB2, MicroFocus Cobol, Cognos Reporting. Worked on the Human Resources payroll PeopleSoft implementation and HR application conversion project corporation's payroll, salary, hourly and benefits stems/application.

Responsibilities:

- Performed data migration from the Mainframe to a UNIX environment using the Lawson CASE tool development tools with Oracle database as a backend database.

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: **214-245-4580** Fax: **972-559-1184**

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Performed conversion of microfocus and mainframe COBOL programs into Oracle Tables. Performed loads using SQL*Loader and ftp from the mainframe environment to the Oracle database.
- Utilized extensive SQL, PL\SQL, Korn, C shell and Unix Shell scripting.
- Performed system analysis, also developed Function, ERD Diagrams and system specifications.
- Created test plans, performed unit and system tests.
- Performed data application interface to the main computer application.
- Prepared user manuals and other documents as needed.

Government Client

Accountant and EPA Grants Coordinator / Fiscal Technician

Technology: CARS, FINDS, MMIS, Oracle Financials, HCFA Reporting, Unix, FAACS Managed the Medicaid Funds drawdown for expenses from First Health Services Medicaid agent for state of Virginia for different reports generated by MMIS system Refugee Resettlement Expenditures, State and Local Hospitalization ensuring proper federal, state and local matches to ensure proper funding for the Weekly Medicaid Claims reports from First Health Services, localities and other state agencies.

Responsibilities:

- Worked on the Oracle Database Financial application implementation worked on the Grants Management / Tracking, A/R, A/P, G/L.
- Worked on implementation of Medicaid Management Information (MMIS) implementation by EDS, IBM and First Health Services.
- Utilized Oracle Developer 2000, SQL for queries, downloads/uploads in a Mainframe and UNIX environments,
- Provided report and screen designs, test scripts and assisted in the unit application system testing implementation and training users.
- Automated the funds transfers and reporting processes.
- Prepared Federal Grant Payment Management System (PMS 272) report a quarterly Federal Department of Health and Human Services report reconciling funds received to expenditures. On a daily basis worked with the Virginia State Treasury and Banks.
- Monitored activities on the FHS Zero Balance Bank Account for First Health checks insured to Medicaid Recipients and Providers in accordance to Medicaid FSR guidelines.
- Reconciled the First Health Monthly Zero Balance Bank Account for the State of Virginia Medicaid Program, the HCFA 32 (budget) ,HCFA 64, state, local other MMIS reports to the Commonwealth Accounting Reporting System (CARS).
- Other duties in the other state agencies included managing the EPA Federal Grants unit at DEQ which included management of the agency Contract/ Procurement programs.
- In all the positions prepared monthly and quarterly State Comptroller's financial reconciliation reports at different levels including:
- Accounts Receivable, Expenditure, Budget, Fixed Asset, Grants, Procurement and Contracts and petty cash reports.
