Senior Oracle Developer – Cendien – Oracle Experts

Oracle Professional Services

Senior Oracle Developer with nineteen years of Unix experience with fifteen years of Oracle and Sybase imbedded SQL and C programming plus 9 years of Java. ASP, VB6, and C++ OOD. Over 12 years experience writing SQL on large database systems, Performance tuning, Stored procedures, Large tables and indexes. Very strong inter-personal and communication skills – managed client relationship for projects of over 800 end users.

Oracle Technical Skills

- Access - 3 Apache ASP
- AT&T 7300 AWK Bourn
- C C++ Centerline C++
- CGI Chameleon Cold Fusion-Cold Fusion Studio – 6 years
- Cognos Cross Talk. C-Shell
- Director DreamWeaver – 9 years E-Commerce Development
- Ethernet Fireworks Flash
- FTP GNU GCC HTML
- Informix Internet Server Administration Internet Telephony
- Java Java Classes JavaScript
- Kermit, LAN-WAN Linux
- Linux Micro C MS Access
- MySQL Networking NFS
- Oracle Perl Photoshop
- PL/SQL Postscript Pro C
- ProComm Quicktime Realplayer
- SABLIME SHELL Solaris
- SQL SQL Server SQL-Plus
- Sun Workstation SunOS 4.1.3 Turbo Basic
- Turbo C Turbo Pascal UNIX
- VB Script Visual Basic Visual C++
- Windows 95/98/NT/XP Winmedia XML

Oracle Clients / Experience

Marketing Client

Consultant

- Formed to allow individual creative and programming freelancer professional to align with others, in order to provide more well-rounded and complete services to our customers.

Financial Client

Article Subscription Service

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: **214-245-4580** Fax: **972-559-1184**

Senior Oracle Developer

Call us today to schedule this resource.

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Development for Oracle 11i Financials, including interface.
- Development for Oracle 11i Manufacturing.
- Train up end user clients to utilize interface.
- Oracle 11i development for Enterprise Business Solutions, ERM, Peoplesoft, Cognos, Crystal Reports.
- Provided Oracle 8 and 9i PL/SQL, Pro*C/Imbedded SQL procedures and scripts.
- Provided portal code with Java classes and JSP via Apache/WebSphere/WebLogic to Oracle database for XML article retrieval by subscribers.
- Wrote Java classes for XML article parsing and article aging from verity database according to provider rules.
- Wrote Oracle 8 and 9i PL/SQL, and stored SQL procedures, Java class interface and shell scripts for creating and processing of report in PeopleSoft General Ledger format, Ftp code and scripts to upload to PeopleSoft, aging of accounting data
- Cognos reports on General Ledger accounting data, subscription data (by state, city, subscriber, account type), daily/monthly/yearly sales reports, tax reports, credit card sales reports, credit card processing system reports (success/performance reporting) and Adhoc/Impromptu Reports.

Environment: C programming, Oracle 8 and 9i and 11i ERM, Financials, Manufacturing, Peoplesoft, PL/SQL, Cognos and Crystal Reports

Pro*C/Imbedded Sql, Portal, Java classes and Jsp, XML, , UNIX/AIX/Linux, Verity, Weblogic, Websphere, Apache, Perl, Korn Shell, Bourn Shell, C Shell, LoadRunner

Telecommunications Client

Consultant

- Provided email services to ensure high delivery of mail without incurring negative spam reports and to get past all known email filters.
- Provided IP rotation software to maintain balance of sending systems.
- Provided Ad tracking capability to track %of mail opened vs %of website hits and %of sales. This allowed client to track scenarios.
- 60,000 people a day-opened mail.
- 55,000 went to website.
- 5,000 submitted remove request.
- 1,000 people purchased product.
- Thus enabling them to monitor what ads worked well and what did not.
- Provide Ad Generation capability to "build on demand" from a variety of ads.
- ColdFusion

Environment: C programming, UNIX/AIX/Linux, Apache, Perl, Bourn Shell, C Shell

Healthcare Client

Consultant

- Provided Oracle 8 and 9i PL/SQL, Stored SQL procedures and scripts for generation of referral claims.

Cendien Consulting

14875 Landmark Blvd., Ste. 100 Dallas, TX 75254

Phone: **214-245-4580** Fax: **972-559-1184**

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Provided portal code with Java classes and JSP to submit generated claim in 837 and 278 EDI format to claims clearing house via http and ftp portals.
- Wrote Foxpro8 front end for entry of referral information.
- COGNOS reports on Referral statistics daily/monthly/yearly, Physician system usage, Tax reports for physicians and medical group and Adhoc/Impromptu Reports.

Environment: C programming, Oracle 8 and 9i PL/SQL, Stored Procedures, Portal, Java classes and JSP, Cognos and Crystal Reports, UNIX/AIX/Linux, Perl, Korn Shell, Bourn Shell, C Shell, FoxPro8

Healthcare Client Consultant

- Provided email filter system to reject incoming mail from unwanted sources.
- Created Data Interface for Palm Pilot written with Borland C allowing Emergency Room doctors to do rapid entry and lookup of patient history and pharmaceutical information.

Healthcare Client Systems Analyst

- Wrote header reader to determine claim type (837, 278) and store claims in Oracle database, as well as create DB2 upload to mainframe claims database.
- Wrote data retrieval system in Visual Basic for end user in claims customer service to retrieve claims data on query and display data - display simulated appropriate claims form.
- Integrated the retrieval system into a FoxPro system and into the powerbuilder reporting system.

Environment: C programming, Oracle 7 and 8 PL/SQL, Pro*C/Imbedded Sql, Cognos and Crystal Reports, UNIX/AIX/Linux, SunOS, Solaris, Apache, Perl, Korn Shell, Bourn Shell, C Shell, PowerBuilder, Visual Basic

Healthcare Client Systems Analyst

- Redesigned claims imaging system that provided workflow capability for routing of claims images and data.
- Claims were scanned into the workflow system in a CCITT Group 3 format.
- Data was stored in an Oracle database and images were stored on optical platter media in SONY jukeboxes and the project platform was SunOS UNIX servers with 400 Sun IPC workstations and 56 PC workstations in the client areas.
- Designed work covered user interface for claims processing, image and data retrieval and routing, image printing on-line and batch, data workflow design, administrative functionality, system usage-performance metrics, optical retrieval, system recovery procedures.
- Designed in C and perl-involved use of TCP-IP client server, sockets, object oriented GUI design and rpc client server.
- The socket client server was released on both the SunOS 4.1.3 platform and PC-DOS 6.2 with Windows 3.1.1 using WINSock, Chameleon, Visual C++ and MSFC.

Cendien Consulting

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Designed a forms flash system for translating text documents into postscript documents for viewing and printing on both SunOS 4.1.3 and PC-DOS 6.2 using page view and ghost view as the display tools.

Environment: C programming, Oracle 7 and 8 PL/SQL, Pro*C/Imbedded Sql, Cognos and Crystal Reports, UNIX/AIX/Linux, SunOS, Solaris, Apache, Perl, Korn Shell, Bourn Shell, C Shell

Telecommunications Client

Consultant

- Designed System that collected telephone usage data from an System used by customer services to track calls in and out of phone representatives and stored the data into an Oracle database automatically building phone representative performance and attendance data.
- Used Object oriented C++ package called Iscreen to build screen interface for users.
- Designed reports for users in C with imbedded sql to extract and compile data stored in Oracle database.
- Designed Oracle relational database that all data was stored in.
- Designed user error tracking capability for system administrators.
- Wrote all user documentation and provided system training.
- Designed system to be used as a multi-user system allowing the system to eventually grow from a single user to over 200 users.
- Converted system from MS-Dos-Oracle system to a SunOS Unix-Oracle system.

Environment: C programming, Oracle 7 and 8 PL/SQL, Pro*C/Imbedded Sql, Cognos and Crystal Reports, UNIX/AIX/Linux, SunOS, Solaris, Apache, Perl, Korn Shell, Bourn Shell, C Shell

Marketing Client

Consultant

- Wrote C programs with imbedded sql to extract and compile data from an Oracle database on an OS2 platform in order to provide daily data to 20 sales marketing representatives dialing in from the field with compact pcs.
- Assisted in the design of the data transfer to the pcs as well as the data filtering to upload to the pcs.
- Received formal training in C++ programming as well as Ivar Jacobson's methodology for object oriented software engineering.
- Converted Document Control System from Oracle 6.0.37 to Oracle 7.1.3.0.0.
- Designed database systems, GUI's, system admin,
- Imaging system, DBA tools, system administration tools, multi platform projects, C, Oracle, Unix, DOS, OS2, functional specs and other analysis, software development tools, statistical analysis of database tools, user driven database reporting tools, data integrity tools, hardware & software research, user support, user documentation, user training, self-education in all areas of software & hardware of projects, knowledge transfer (training of other programmers in new software and hardware), roll out to users & programmers of new hardware platform(s).

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

Government Client

Programmer-Analyst

- Developed C programs on a Unix platform to extract docketing information from a Unify database.
- Provided software and hardware installation, maintenance and user support for mainframe and pc systems, designing menu systems for both, as well as system administration of mainframe.

University Client

Academic Computing

- Provided software and hardware installation and administration for over 700 campus personal computers using MS-Dos 3.30 networked with PC-NFS with Sun 4-490s as the network servers on a SunOS 4.0 Unix platform.
- During tenure campus went from a lab of 25 personal computers to over 700 campus wide computer systems.
- As academic consultant, assisted in organizing and teaching classes offered to the campus community in the use of the VAX 11-780 and a variety of microcomputers.

Financial Client

Systems Programmer

- Developed governmental software and designed contracts for P3C Orion.
- Assisted in design and development of 80% of project and maintained sysgens for project.

Oracle Education / Certifications

- MS/Computer Science
- BS/Computer Science/Mathematics
