Oracle Clients / Experience

Independent Consulting

Present PACS and EMR Implementation and Project Management Consultant

- Enterprise wide IS Clinical Applications, Project Management/Administration, Project Assessment, Budget Planning, Contract Negotiations.
- Client documentation, Team Management and Mentorship, and Developing and Conducting End-User Training; Mapping Terminology and Procedures to Client's Operating Environment.
- Completion of integrations, post go-live, version updates, and end-user training for clients no longer under annual flat-rate service agreements with their original systems vendors, saving clients an average of \$265K annually in billable hours and vendor charged travel and operations expenses.
- Sits in advisement to clients at initial planning, capital costs, and system design meetings providing client perspective needs assessment and costs saving suggestions, thus reducing initial capital expenditures by an estimated 5-10%.
- Software: Fuji Synapse
 - Fuji FCR
 - Cerner Millenium Provision, PowerChart
- Tools: Oracle, Windows 2003 Server, IIS, Perl, PC Anywhere

Medical Client

Healthcare Network Services Implementation Engineer

- Valuable partner in the entire planning and implementation cycle of 4 enterprise wide PACS systems, 8 CR systems, and at least 14 modality integrations, generating an estimated \$8 million in revenue over 3 years. 100% travel to various hospitals and clinics required. DICOM Modality Integration and HL7 Messaging Interpretation and Error Correction.
- By using my knowledge of radiology workflow processes, information systems, applications, interfaces, and databases, 85% on-time and under budget in key phases of implementation cycle, saving both client and vendor untold costs associated with billable hours, travel expenditures, and misc expenses.
- Designed & re-formulated 7 radiology reading rooms, thus improving clinical workflow and efficiency by an estimated 27%.
- Software: Fuji Synapse
 - Fuji FCR
- Tools: Oracle, DICOM Doctor, Windows 2003 Server, IIS, Perl, PC Anywhere

<http://www.cendien.com>

Healthcare Client

Implementation Engineering and Project Consultant

- Key contributor in the entire planning, design, and implementation cycle for 12 enterprise wide PACS & Centricity EMR implementations, generating nearly \$39 million in potential revenue over 4 years.
- Integral member of design and development team that created highly touted GE PACS and Centricity EMR training curriculum and subsequent web-based training module, saving GE over \$500K annually in training cost & GE clients at least \$3 million annually in training expenditures.
- Trained Hospital Administrators, Radiologists, and Technicians using such Training Techniques to include classroom, webinar style sessions, and client-facing presentations & Q&A groups.
- DICOM Modality Integration and HL7 Messaging Interpretation and Error Correction.
- Use of Six Sigma/Lean Methodologies as Project Consultant in accordance with direction from Sr. Project Managers in all aspects of PACS Implementation Projects including Needs Assessment, Timeline Planning, Reading Room Planning/Design; Group Think/Design, and Project Feasibility. Formulating objectives; planning project life-cycle deliverables and resource availability; workflow and design schemes planning; applications testing Q/A, and go-live planning, scheduling, and bug/break/fix assessments.
- Software: GE Centricity
- GE Centricity EMR
- IDX CareCast,
- Cerner RadNet
- Tools: DICOM Doctor, Sybase, Sun Solaris 8 & 9, 7-Edit, and Timbuktu Pro

Telecommunications Client

Team Project Implementation Lead

- Promoted from Sr. Engineer to Planning and Implementation Team Lead for development and implementation of the OPUS (One Point Universal System) software application and supporting applications including POSIIOracle and SQLBlueNet within first month of project.
- Tasked to form a merged team of engineers, project managers, business analysts, and developers to develop, test, implement, and support applications that were a critical component in the \$41 billion merger of AT&T & Cingular Wireless.
- Appointed liaison for all communications and interactions between the OPUS application team and all other associates of Cingular including C-Level Executives, Public Relations Staff, and Cingular/AT&T Wireless Shareholders.
- Wrote and Illustrated 2 application user manuals and 3 post production support training manuals thereby improving end-user experience and team ramp-up time significantly.
- Team Management, Motivation, and Responsibility Delegation; Interviewed, Hired & Trained over 120 associates supervising 40+ at any given time.
