did a gap analysis on a physician office project to determine a HIPAA ANSI X12n 837 Professional transaction set requirement and specification. My task as an object-level programmer-analyst was to enhance a chemical and hazardous materials laboratory inventory system written in VB 6 COM objects to prepare for a transition of its data-aware class objects including queries from Access to Oracle and SQL Server 2000 . Was a senior software engineer on a three-year engagement with a telecommunications company. Worked to convert ERP applications like Project Systems and General Ledger data from legacy systems to an SAP R/3 environment with an Oracle database.

Research Corporation

PM Information Technology

- Technical / Functional lead for a federal government contractor. Gathered business requirements from the client team for an Oracle databases and Peoplesoft implementation. Worked with the team in gathering business and functional requirements.
- Worked to convert ERP applications like Project Systems and General Ledger data from legacy systems to a Great Plains environment with an Oracle database.
- Customized the user environment to suit the needs of the client. Developed reports and programs in functional areas for several operating units. Made enhancements to Great Plains standard interfaces, participated with users to develop requirements and technical specifications, performed unit testing of the new development, created change requests to transport development to production after testing, validated and transferred FI/CO/PS data from legacy systems into SAP, implemented the Project Systems module, and provided post-implementation support to the operating units.
- For three years acted a software engineer at a telecommunications company, participated in intranet development using Cold Fusion, JavaScript, HTML and DHTML. Performed detailed analysis and assessments for PL/SQL applications that ran on an Oracle v7.1 environment, and completed several quality audits of the client's portfolio of applications.

Oracle Education / Certifications

- Oracle PL/SQL Training
- Oracle Advanced PL/SQL Training
- Oracle DBA Fundamentals 1
