Senior Oracle Developer – Cendien – Oracle Experts

Oracle Professional Services

Detailed Design and Presentation expertise. Communicating complex ideas in both formal and informal settings.

Oracle Technical Skills

- Hardware Adept at the A+ Certification level in regards to hardware maintenance, troubleshooting and configuration.

- Operating Systems Windows 95 2000/XP, Macintosh OS 8-X, Windows Server Family, Linux Operating Systems (Debian, Redhat, Gentoo and CentOS distributions), Sun Solaris 8,9, IBM AIX 5.3 ML 4 and ML5

- Software TOAD, JDeveloper, CVS, Subversion, Microsoft Office, Adobe Professional Suite and Macromedia Studio MX. Oracle BPEL Designer, JDeveloper, SQL developer

- Programming HTML, C/C++, Java, Macromedia Coldfusion, Oracle PL/SQL, Type: 80 wpm

- Oracle Technology: Oracle Portal, Workflow, 9i Application Server, Forms and Reports, Discoverer 10g, Application Server, Fusion Middleware, Oracle BPEL, Oracle Application Integration, Oracle Database Management (8i, 9i, 10g.) Oracle Applications E-business Suite management (10.x, 11i, 12), HTMLDB, Oracle RAC (Real Application clustering,) PL/SQL, Performance tuning. Designing and implementing large database and application server infrastructure components. Oracle E-business Suite API, Open Interface, Business Object Document Interface XML Gateway, Application Server API, DBMS_LDAP etc.

Oracle Clients / Experience

Technology Design Client
Founding Partner

- Oracle Application and Database server running in UNIX or Windows.
- High Availability Oracle Environments.
- Clustered File System Design and implementation.
- Virtual computing using AIX Hypervisor and VMWare.
- Infrastructure virtualization design and implementation.
- Database Modeling and PL/SQL Software development.
- Java centric development approach.

- Oracle E-business Suite Patch/Install/Maintain, Integrate with legacy systems via module API or Oracle Application Group Business Object Document specification, SSO enable e-business suite, integrate with Fusion middleware.
- Application Integration with Oracle Business Process Execution Language (BPEL). Custom Interface design and development. ETL via sql-loader/datapump.
- Apache Open for Business (OFBIZ) design and implementation, integrate with existing windows or *nix environments.
- Clients include: Deloitte, Dept of Education, U.S. Marine Corps, Department of Justice, and FDA.

Technology and Outsourcing Client
Systems Integration Consultant

- Full Software Development Lifecycle implementation for the Department of Justice Consolidated Debt Collection System.
- Worked on the development and technical architecture teams, developing oracle workflow definition and LDAP integration code as well as technical architecture design and implementation.
- Completed the installation of 10g RAC Databases on IBM AIX P595 series hardware (complete server virtualization/grid computing.)
- Installed clustered and Load balanced Application Server using Oracle RAC database as Application server metadata repository
- Developed a substantial PL/SQL interface package for the CDCS Application to interface with the Oracle Workflow product
- Developed Migration Scripts for Legacy System Migration
- Extensive RAC/Database performance tuning and query analysis/optimization.

Software Company Client
Consultant Engineer
- position entailed intensive training, certification and implementation of Oracle core technology products
- Worked on-site supporting a multi million dollar Oracle project with the FDA.
- Worked with the United States Marine Corp Implementing Global Combat Support System.
- Successfully completed Oracle consulting boot camp in Java, JSP, J2EE, Oracle databases, html, SQL, PL/SQL
- Please look below for project experience summary.

Technology and Outsourcing Client
Inventory Analyst

- Managed 20 teams responsible for inventory assessment of the Public Schools Information Technology assets

- Trained and managed 100 temporary hires for inventory data collection at 180 public schools in Baltimore City.
- Deployed a Local Area Network specifically for the project headquarters to enable information sharing
- Debugged a Visual Basic ETL tool for reporting on collected data
- Provided technical support onsite when needed.

Government Client (side work)

Applications DBA: Installed and performed the full spectrum of DBA activities for six Oracle Applications 11.5.10.2 Instances, configured and deployed Mobile Field

Service Module on all six instances. Configured XML Gateway for A2A Integration. The instances were used to demonstrate Logistics Best Practices as well as to demonstrate a complex cross domain and deployed instances data synchronization solution.

Integration Infrastructure Support: Installed and configured two BPEL/OID/Portal instances. Performed Oracle Federation and Oracle Web services manager installation and configuration. Applied patches as necessary to enable new functionality.

Advanced Research Laboratory PENN State Performed Fusion Middleware Installation to support sensor edge server proof of concept.

Oracle Education / Certifications

BA, Economics concentration in Finance.
National Merit Scholar Semifinalist and AP Honor award recipient
