Senior Oracle Developer – Cendien – Oracle Experts

Oracle Professional Services

- Over Nine years of experience in IT as a Oracle Developer providing extensive support in analysis, design, development, testing and implementation of various business applications.
- Experienced in PL/SQL developing codes - packages, stored procedures, functions and triggers.
- Extensively used Joins, Cursors, Triggers, Stored Procedures and Functions in PL/SQL.
- Expertise in Developing packaged Application using Developer 2000 (Forms and Reports).
- Experienced in creating Database objects like tables, views, indexes, packages etc., in oracle database.
- Experienced in Query Optimization, Debugging, and Tuning and Improvising performance of the applications.
- Used Rule-base and Cost-base Optimizers to tune the Queries, Packages, Stored procedures and functions.
- Used Explain Plan for optimization of PL/SQL code.
- Performance monitoring and tuning of Oracle databases and applications.
- Experienced in DBA activities such as installation, backup and performance monitoring of oracle database.
- Physical Cold and Hot backup / recovery, logical backup / restore using Export / Import.
- Experienced Use of Oracle utilities like export/import, SQL*Loader, utlstat, utlstat.
- Oracle 8i,9i/10g Database server Installation, upgrade, patch application and migration of Oracle database on Unix and NT platforms
- Unix shell scripts, SQL scripts, PL/SQL codes.

Oracle Technical Skills

O.S. : Windows XP/NT/95/98/2000, Unix, HP-UX, Linux, Solaris (SPARC),AS400

RDBMS/DBMS : Oracle 10g,9i,8i,8.x,7.x

TOOLS/

UTILITIES : SQL*Plus , SQL*Loader, OEM, Server Manager,RMAN, iSQL*Plus

Oracle Developer 2000 Forms(3.0,4.5,5.0 & 6i) Reports (1.1,2.5,3,6i).

LANGUAGES : C, Unix Shell Scripts, SQL, PL/SQL, Pro*C, BASIC,
COBOL, C++, HTML, XML, Java

GUI : Oracle Developer Suite (Forms 4.5/5/6i, Reports 2.5/3/6i), 11i
Crystal Reports 9/10/XI, Crystal Enterprise 9/10.

Oracle Clients / Experience

IT Consulting Client

Oracle PL/SQL Developer

Involved as Oracle developer for databases supporting existing Supporting production, QA and development environments and their users. Also responsible for following:

- Oracle 10g Database Installation and Development on (Windows ,Linux ,Unix OS)
- Developed PL/SQL packages, stored procedures and Database triggers, Libraries etc.
- Developed data entry forms in Developer 2000 Forms 6i
- Developed Reports in Developer 2000 Reports tools.
- Involved in Performance Tuning of PL/SQL and application
- Used Rule-base and Cost-base Optimizers to tune the Queries, Packages, Stored procedures and functions.
- Used Explain Plan for optimization of PL/SQL code.
- Installation of Oracle Database Software and OEM 2.1 (3 tier) Software.
- Creating databases and setting up client / repository / management server for OEM.
- Monitoring and managing databases at different locations using Oracle Enterprise Manager.
- Guiding development team in writing and tuning SQL at application level and improving the performance of batch jobs.
- Monitoring and tuning performance of databases. This includes use of static and dynamic (v\$) performance tables for performance monitoring and init para changes for tuning.
- Creating and maintaining Oracle objects like tablespaces, rollback segments, indexes, tables etc.

Environment : Developer 2000. Forms & Reports 6i conversion, Java, ProC*, Oracle 10g,9i, Weblogic, EJB, JavaScript, XML, Lotus notes, CM Synergy, Crystal Reports, JDBC, UNIX (Sun, AIX), PL/Sql Developer, Window XP and Eclipse.

Financial Client

Oracle PL/SQL Developer

Responsibilities

- Developed PL/SQL custom scripts for enhancements and customizations.
- Worked extensively with user base to get specifications and developed solution designs using PL/SQL Package.
- Developed Procedures, Function and Triggers using PL/SQL.
- Worked on system interface using PL/SQL.
- Implemented business logic components using java and JDBC for database access.
- Import data from Exact System into Accord for South Conversion using Sql Loader.
- Developed shell Scripts.
- Write design documents and testing of modules.
- Tuning of PL/SQL (Procedure, Function and SQL).

Cendien Consulting

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

Environment : Java, ProC*, Oracle 10g,9i, Weblogic, EJB, JavaScript, XML, Lotus notes, CM Synergy, Crystal Reports, JDBC, UNIX (Sun, AIX), PL/Sql Developer, Window XP and Eclipse.

Pharmaceutical Client

Oracle Developer

Responsibilities :

- Worked within the business intelligence team on existing project modules to identify where improvements need to be made in order to support new requirements and/or more efficiently support existing functionality.
- Developed data entry forms, complex and template forms in Forms 6i.
- Created Pop-up Menus and maintaining Master Detail relation-ship.
- Created Custom Triggers, Stored Procedures, Packages and SQL Scripts.
- Developing Database Triggers to audit the sensitive data of the table along with user information and to enforce complex business rules.
- Developed SQL*loader scripts to load data in the custom tables.
- Developed PL/SQL stored procedures, user defined functions for complex calculations and bundle them into stored package that could be invoked from the Forms triggers.
- Developed Master Detail reports in Reports 6i to meet the requirements of end users within the system.
- Used various LOVS (List of Values) and record groups at various points in runtime.
- Development of client side program units and sharing them among multiple applications for processing business logic in the database.
- Worked on optimizing existing procedures and functions using PL/SQL.
- Modified existing codes and developed PL/SQL packages to perform Certain Specialized functions / enhancement on Oracle Application.
- Wrote Procedures and database triggers for the validation of input data and to implement business rules.
- Designed screen layouts, programming and integrating other sub-systems.
- Performed SQL tuning using Explain Plan, Tkprof, Hints and indexes.
- Involved in testing all forms, PL/SQL code for logic correction.
- Performed Unit testing on queries and reports.
- Automated the SQL scripts using UNIX shell scripting.

Environment: Oracle 10g,/9i OEM, Windows XP, Sun Solaris 2.x, Developer-2000 Forms&Reports 6i, SQL*Plus, iSQL*Plus, PL/SQL, SQL*Loader, Unix shell script

Insurance Client

Oracle Developer

Responsibilities:

- Developed PL/SQL custom scripts for enhancements and customizations.

Software Development Client

Sr. Oracle Software Developer

I was working in Software Development Team providing Oracle Developer, Developer 2000 support from March 2000 to Dec 2000.

Responsibilities

- Involved in Performance Tuning of and application.
- Used Rule-base and Cost-base Optimizers to tune the Queries, Packages, Stored Procedures and Functions.
- Involved in analysis, design, coding and tuning of different modules.
- System Administration (Windows NT 4.0 & HP-UZ) & Oracle Database Administration Performance tuning of operating systems and Backup & Recovery
- System Analysis & Design using system development life cycle (SDLC) method
- Development of Application using Developer 2000 R2.1, Forms 4.5 & documentation.
- Developed PL/SQL packages, stored procedures and Database triggers, Libraries etc.
- Used Explain Plan for optimization of PL/SQL code.

Environment: Oracle 8/7.x, Windows NT, HP-9000 G40/E45, IBM-Netfinity , Oracle Enterprise Manager,

Developer-2000 Forms 4.5/Reports1.1 & 2.5, SQL*Plus 8.1.6, PL/SQL

Financial Client

PL/SQL Developer

Responsibilities:

- Involved in importing student profile and populating custom reports.
- Designed and implemented a procedure to export the student housing data to SCT BANNER.
- Updated tables when student room assignments are added, updated or deleted.
- Developed PL/SQL procedures, triggers and packages.
- Developed data entry forms, complex and template forms in Forms 6i.

CENDIEN CORP: **(214) 245-4580**

<http://www.cendien.com>

- Involved in resolving the production issues with various applications.
- Applied DATAWAREHOUSE concepts to retrieve data and loading them into tables.
- Used SQL*LOADER to transfer data.
- Writing the extract program to populate the files with the student details using PL/SQL and automate the process using Unix shell scripts
- Developed forms & reports for the application using oracle forms and reports 10g/6i
- Involved with the testing team to perform Functional and Unit testing.
- Involved in SQL Query tuning.
- Responsible for customizing existing Forms meeting with the new business requirements.

Environment: Oracle 8i, PL/SQL, TOAD, windows 2000 server, crystal reports, crystal enterprise, Visual Source Safe, SQL* Loader.

Technology Company

Oracle Programmer/Analyst

Responsibilities :

- Responsible for system study & information gathering.
- Development was done using front end as Oracle Developer/2000.
- Involved in creation of Tables using storage parameters and clusters.
- Involved in writing Database procedures, Functions, Packages and Database Triggers.
- Coded many generic routines (as functions), which could be called from other procedures.
- Developed user interface screens, Master detail relations and Report screens.
- Developed various Reports for the end users as per their requirements and created many reports to suit preprinted format of the company.
- Front end coding and Creating LOVs, Record groups, Libraries and menus.
- Developed complex Forms and Reports using Oracle tools.
- Conducted training sessions to end-users.
- Involved in integration testing.
- Participated in-group meetings, interview sessions with users and presentations to different levels of management.

Technology Company

Oracle Programmer/Analyst

Responsibilities :

- Understanding the Business requirements.
- Building the screen templates to approve by the end users.
- Created and generated the database scripts to create the database objects.
- Designing the screen based on the approval.
- Validating the forms based on the business rules.
- Writing triggers, procedures and functions for each screen validating the business rules.
- Created and generated the database scripts to create the database objects.
- Created different reports for the different screens with different parameters dynamically.

Cendien Consulting
