## Senior PeopleSoft Developer – Cendien – PeopleSoft Experts

### PeopleSoft Professional Services

The Consultant has over nineteen years of experience in financial consulting, including project management, system design, configuration, implementation, upgrade, optimization and production support of delivered and custom applications for Financials, Distribution and Supply Chain. The Consultant specializes in General Ledger supporting VAT/GST and MultiCurrency, and Billing/Receivable implementations, including integration to multiple legacy and PeopleSoft applications. The Consultant provides development and troubleshooting for PS/n Vision and Treasury Cash Management. The Consultant has led Financials implementations and design workshops, as well as provided Fit/Gap Assessments and production support for several PeopleSoft® Financial and Supply Chain applications outside of her specialized arena. Her expertise in project management includes facilitating requirements definition sessions, implementation of scalable infrastructure, development and delivery of end-user training, and the creation, functional redesign and maintenance of project proposals, schedules and budgets for communication to Management. The Consultant's client base includes technology startups, retail, insurance, healthcare, distribution, services, public utilities, education and government. The Consultant has held previous positions as a software implementer, project manager, corporate controller, MIS director and managed a business consulting practice.

### PeopleSoft Technical Skills

#### PeopleSoft Enterprise FSCM 6.0 through 7.5 Assessments, Implementations & Upgrades

##### PeopleSoft Consulting

## PeopleSoft Clients / Experience

### Public Utility Client

#### Peoplesoft Team Lead

#### PeopleSoft Enterprise FSCM 8.8 Implementation

- Billing and Receivables ~ Team Lead: The Consultant was requested for the 3rd restart of the BI/AR PeopleSoft program to gather requirements and manage the implementation, data conversion and report development. The Consultant developed the design to standardize 17 disparate billing areas, integrations with Treasury, General Ledger, and external interfaces with TRANZ billing system, PowerPlant and the Sabrix tax software. Data conversion included the consolidation of customers and contacts and converting open items. The Consultant managed an implementation team that varied in resources from 5 to 12 members.

### Public Utility

#### Financials Lead/Project Management Consultant

#### PeopleSoft Enterprise FSCM 8.8 Implementation

- General Ledger ~ Financials Lead/Project Management: The Consultant was engaged to manage a restart of the GL portion of a \$14M PeopleSoft implementation. The Consultant managed a GL Team comprised of 10 client and independent consultants, and coordinated with the technical consultants of Oracle's offshore India Solution Center. The Consultant actively participated in bi-weekly Steering Committee meetings, work plan development and maintenance, leading team meetings and producing team status reports. The Consultant created and presented change orders, the interface and customization requests for PowerPlant, PSFT HR, custom systems and managed all staffing related issues. The Consultant was included in significant internal interface and data conversion activities on other applications.

### Internet Marketing Service Industry

#### PeopleSoft Consultant

#### PeopleSoft Enterprise FSCM 8.8 Implementation

- Billing and Receivables ~ Lead: The Consultant led the BI/AR implementation where The Consultant established the Consultant's divergent Canadian GST configuration for multiple entities in BI and AR. Her testing and configuration supported the integration of Contracts, as well as the TBP scheduled for a future Phase 2 rollout.

### Manufacturing, Distribution & Retail Industry

- General Ledger, Cash Management & VAT ~ Financials Lead: The Consultant led a large financials implementation team. The Consultant collaborated and guided the client team thru configuration, testing activities, documentation, training, and support. Complexity of the implementation included enabling InterUnit Processing, Allocations, Consolidations, MultiCurrency functionality and VAT processing for Canada and 2 European Union countries. The Consultant also provided support & trained the Finance department in the use of Cash Position Trees, and WorkThe Consultantets after the Treasury consultant rolled off the project. In addition to collaborating and leading the GL team members, The Consultant was Financials lead for the AR/BI and OM consultants on the project team.

### Healthcare Industry

#### PeopleSoft Consultant

##### PeopleSoft Enterprise FSCM 8.8 MultiCurrency and InterUnit Strategy

- General Ledger, Billing, Receivables, Order Mgmt, Purchasing, Payables, Payroll, & Asset Mgmt ~ Consultant: The Consultant developed the General Ledger and Financials configuration documentation, project plan and the testing scenarios for eight applications to support implementation of MultiCurrency processing and InterUnit accounting. The Consultant gathered information from representatives of IT and the financial teams and provided impact and task lists, and reporting requirements for each application.

### Public Utilities Industry

#### PeopleSoft Consultant

##### PeopleSoft Enterprise FSCM 8.4 Implementation

- General Ledger & Reporting ~ Lead: The Consultant was the Team Lead conducting fit/gap analysis sessions for General Ledger Requirements, and a Solutions Summary & Reporting analysis involving 21 feeder systems. The Consultant analyzed best practices for SEC & FERC Platforms to address auditing requirements. The Consultant collaborated on the design of sibling tables to comply with Sarbanes-Oxley internal control requirements & interrogatory reporting.

### Banking Industry

#### PeopleSoft Consultant

##### PeopleSoft Enterprise FSCM 8.4 Combination Editing Performance Review

- General Ledger, ChartField & Combination Editing ~ Consultant: The Consultant conducted a financial system combination editing configuration and processing examination to improve online and background system performance. Her analysis resulted in an industry best practices comparison outlining various strategies for ChartField redesign, Tree restructure, Combination Editing configuration and scheduled processing.
